

G21B: Pharynx

Group A: Clinical Apps (HSEB 2600)

Group B: Deep face (Cadaver Lab)

Syllabus - Pg. 75

Finish G21A

- go to page 70

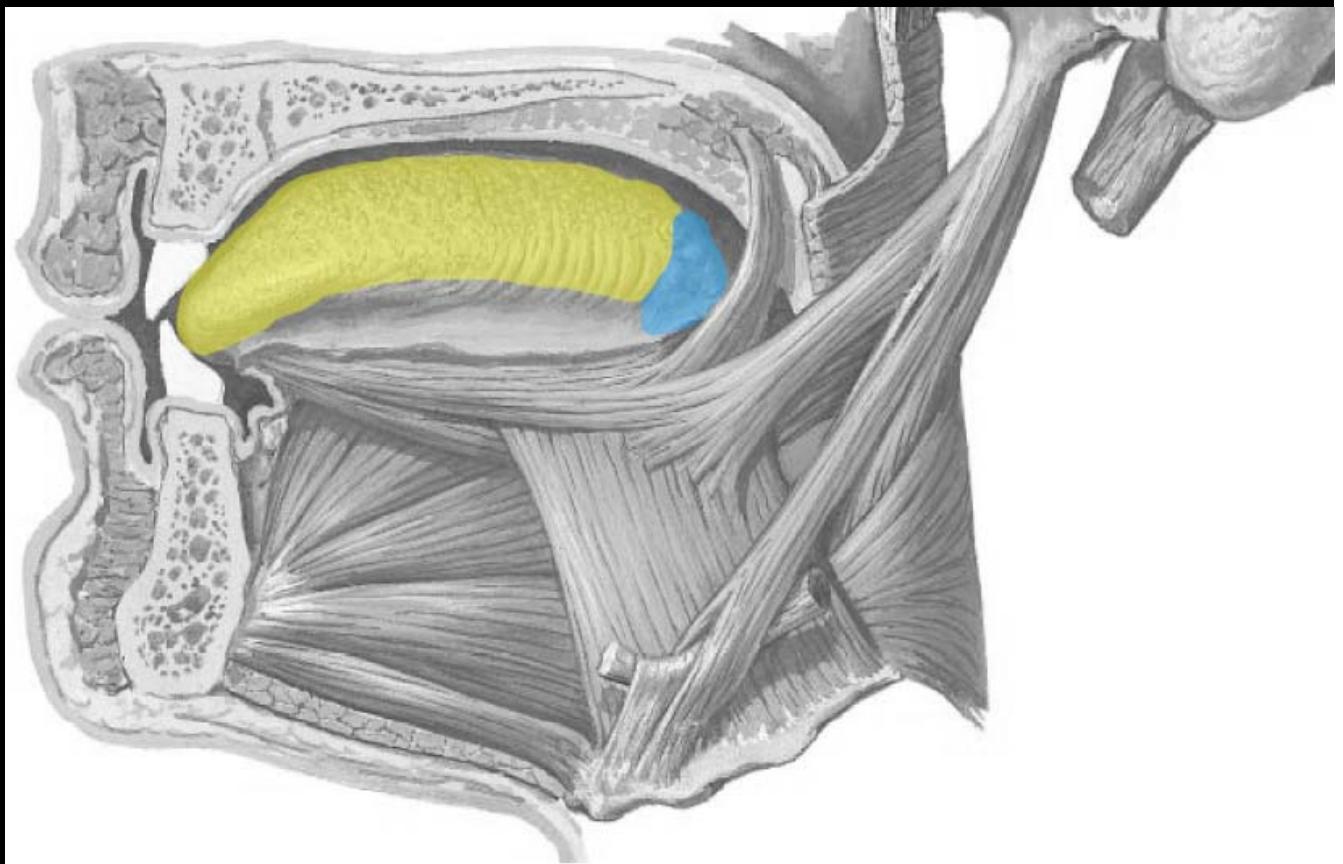

2) Tongue - Innervation

Anterior tongue

- GS
- SS

Posterior tongue

- GS
- SS

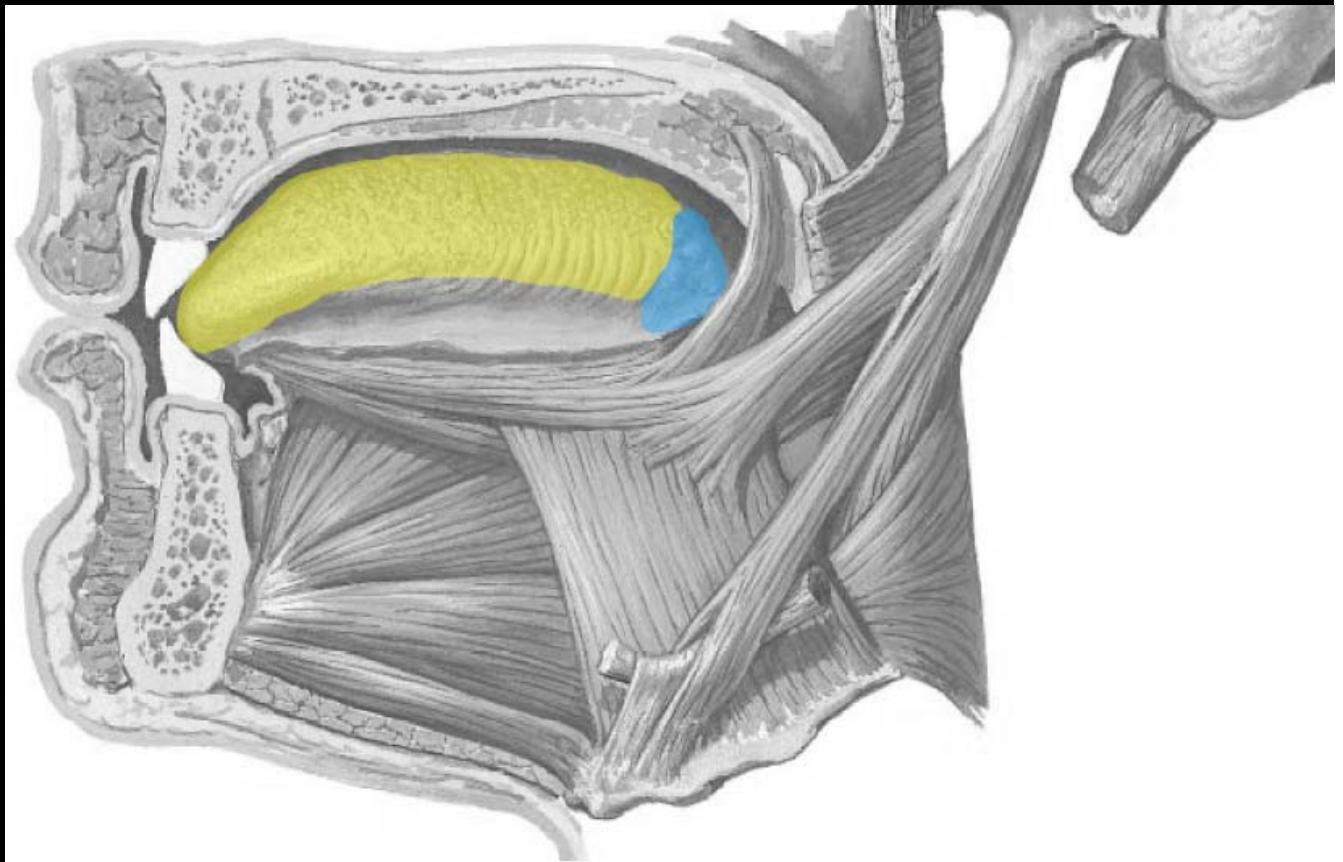

2) Tongue - Innervation

Anterior tongue

- GS - CN V-3 (lingual)
- SS - CN VII (chorda tympani)

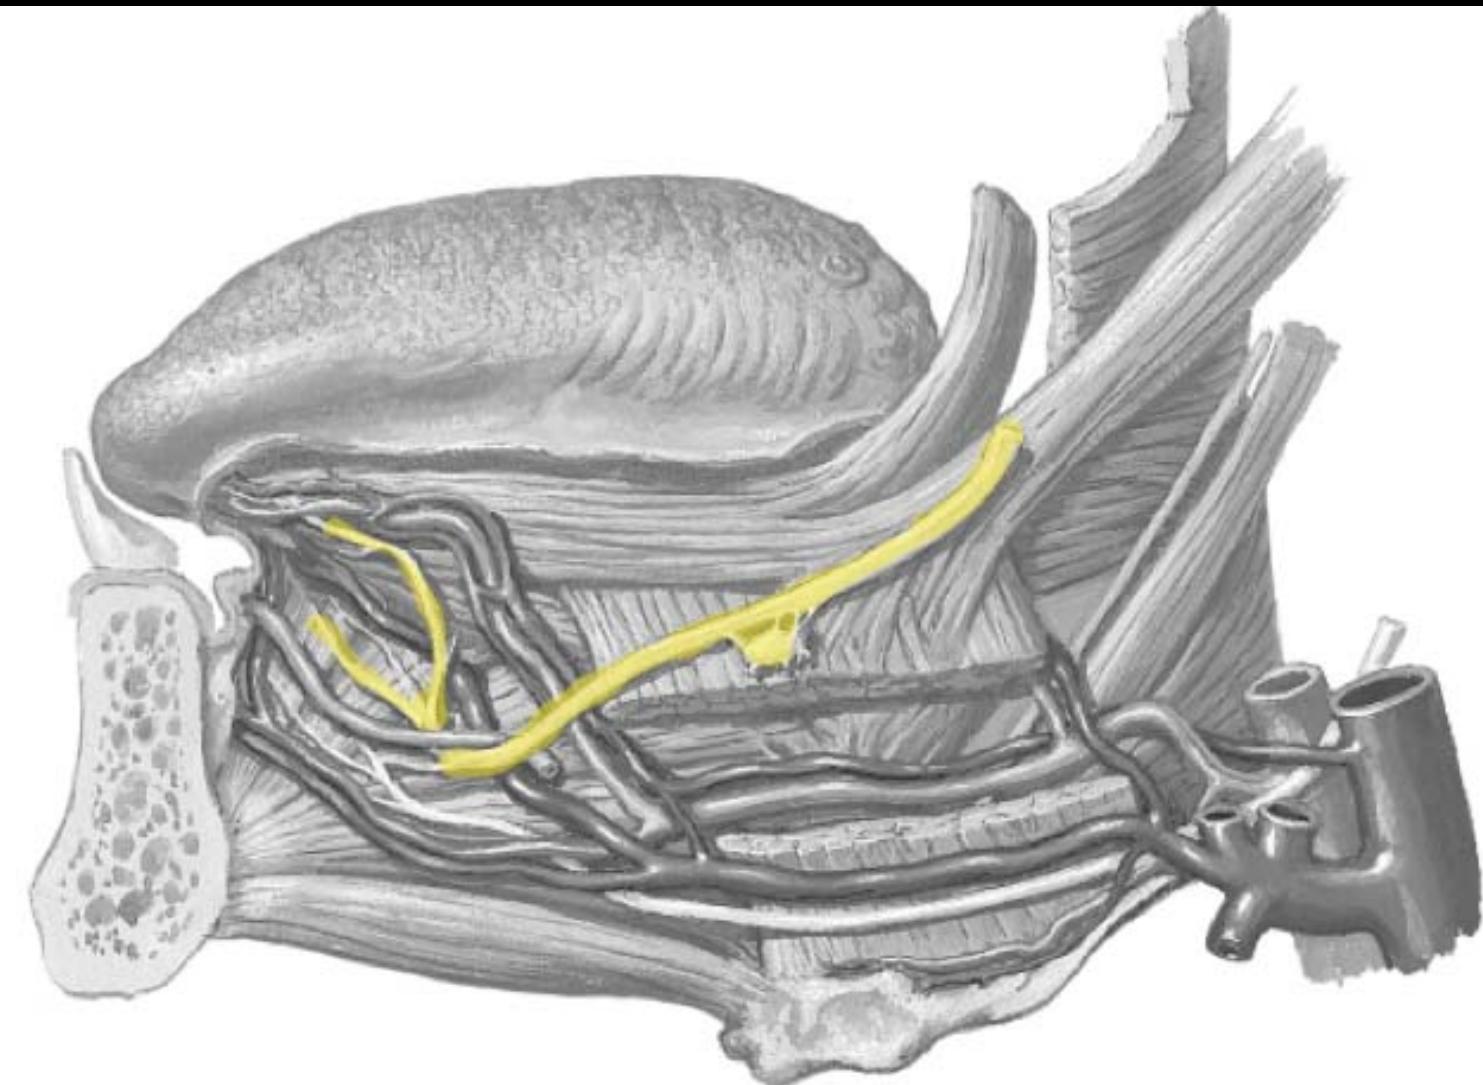

Posterior tongue

- GS - CN IX
- SS - CN IX

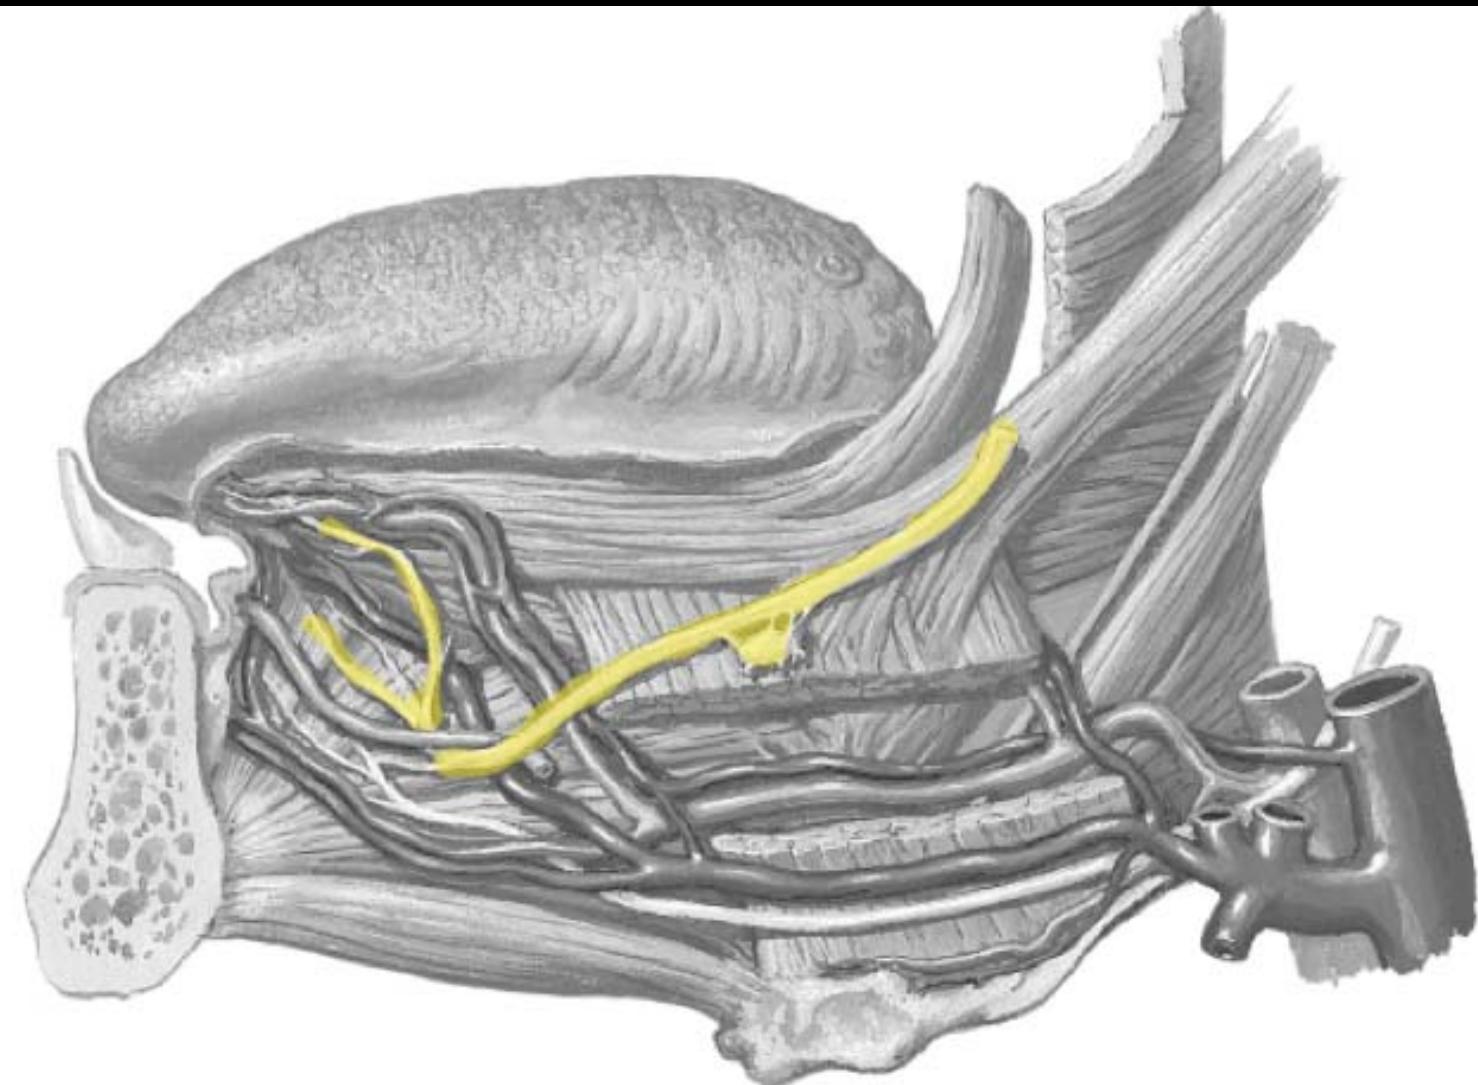

2) Tongue - Innervation

ID the nerve

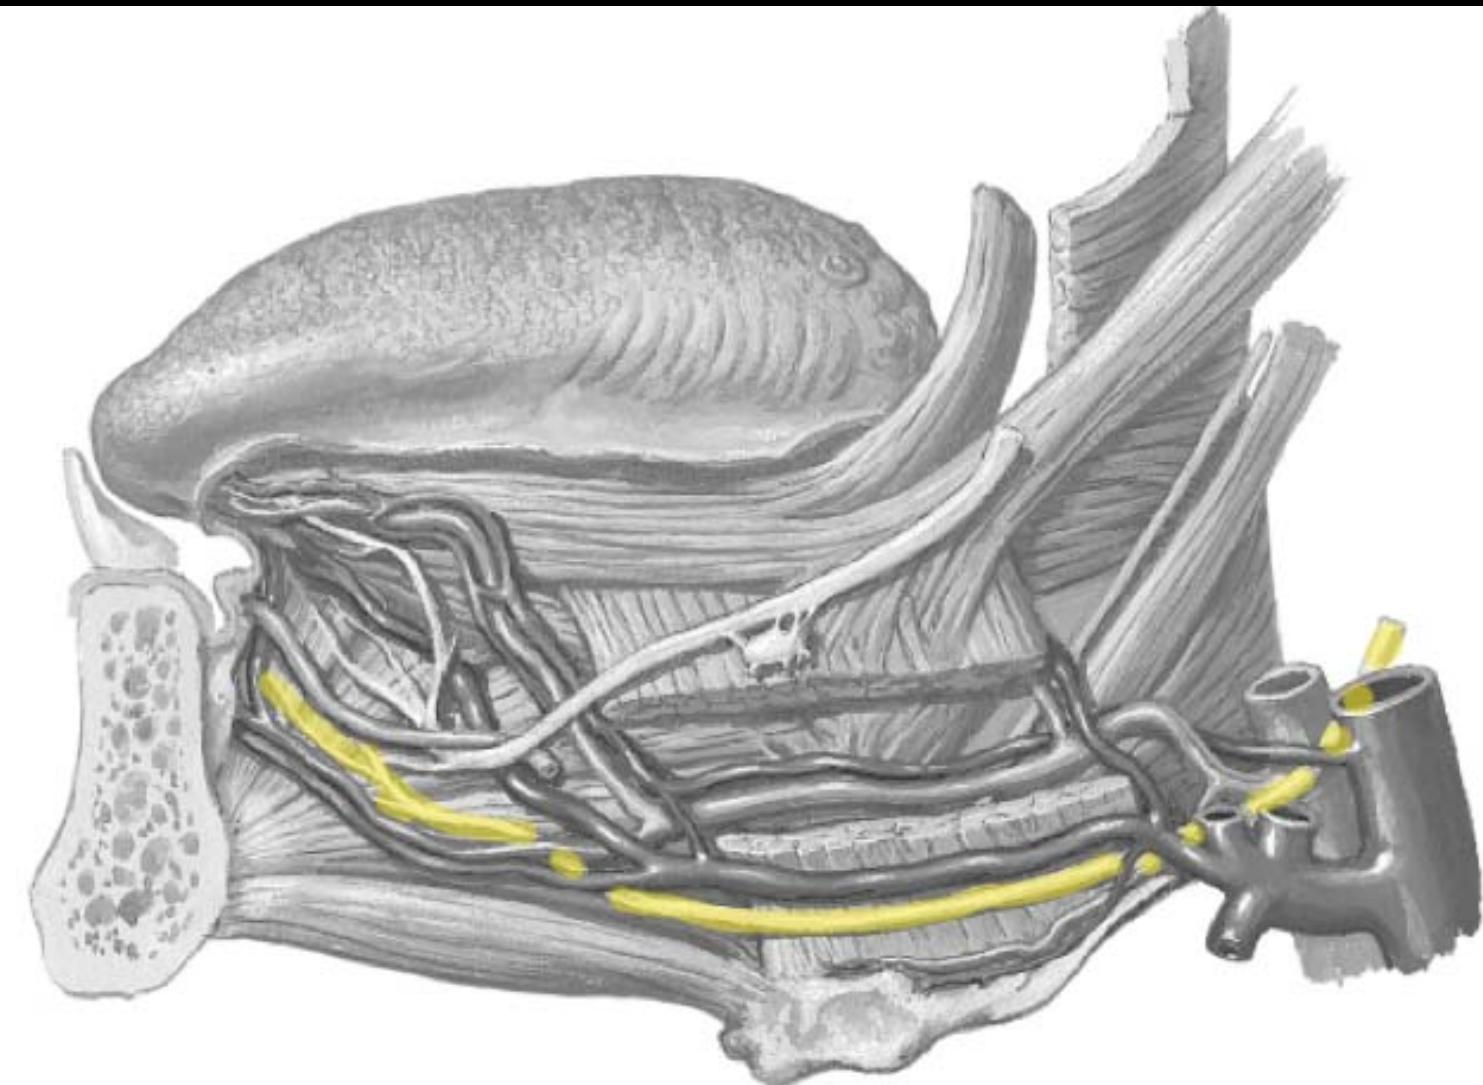

2) Tongue - Innervation

Lingual nerve

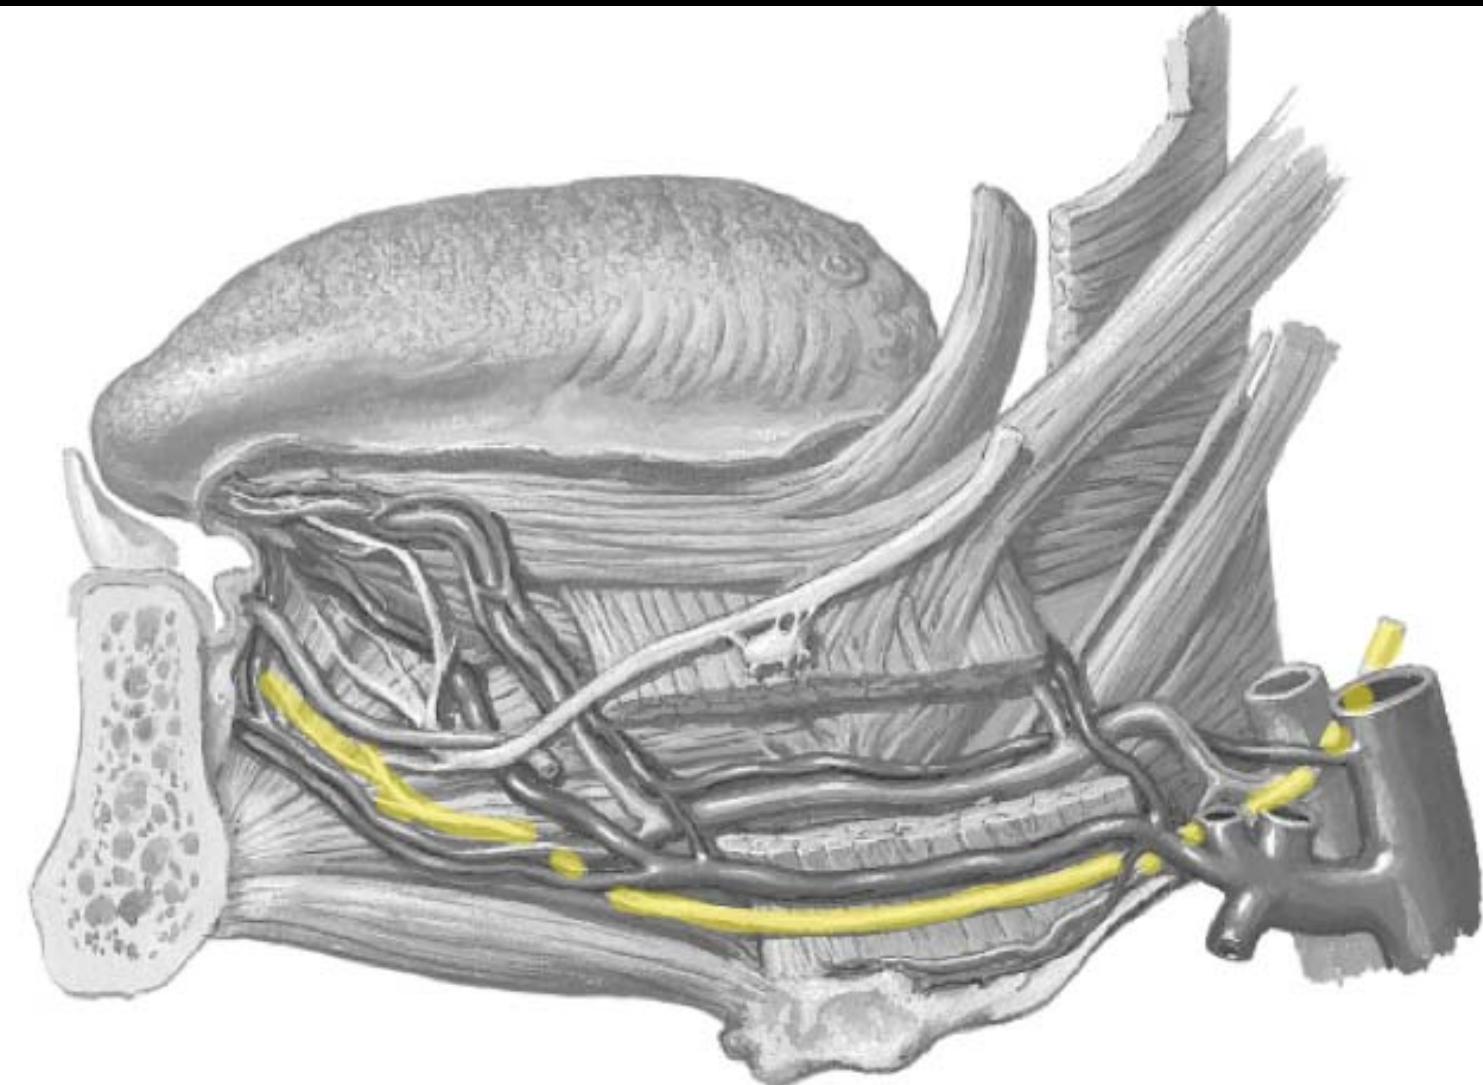

2) Tongue - Innervation

ID the nerve

2) Tongue - Innervation

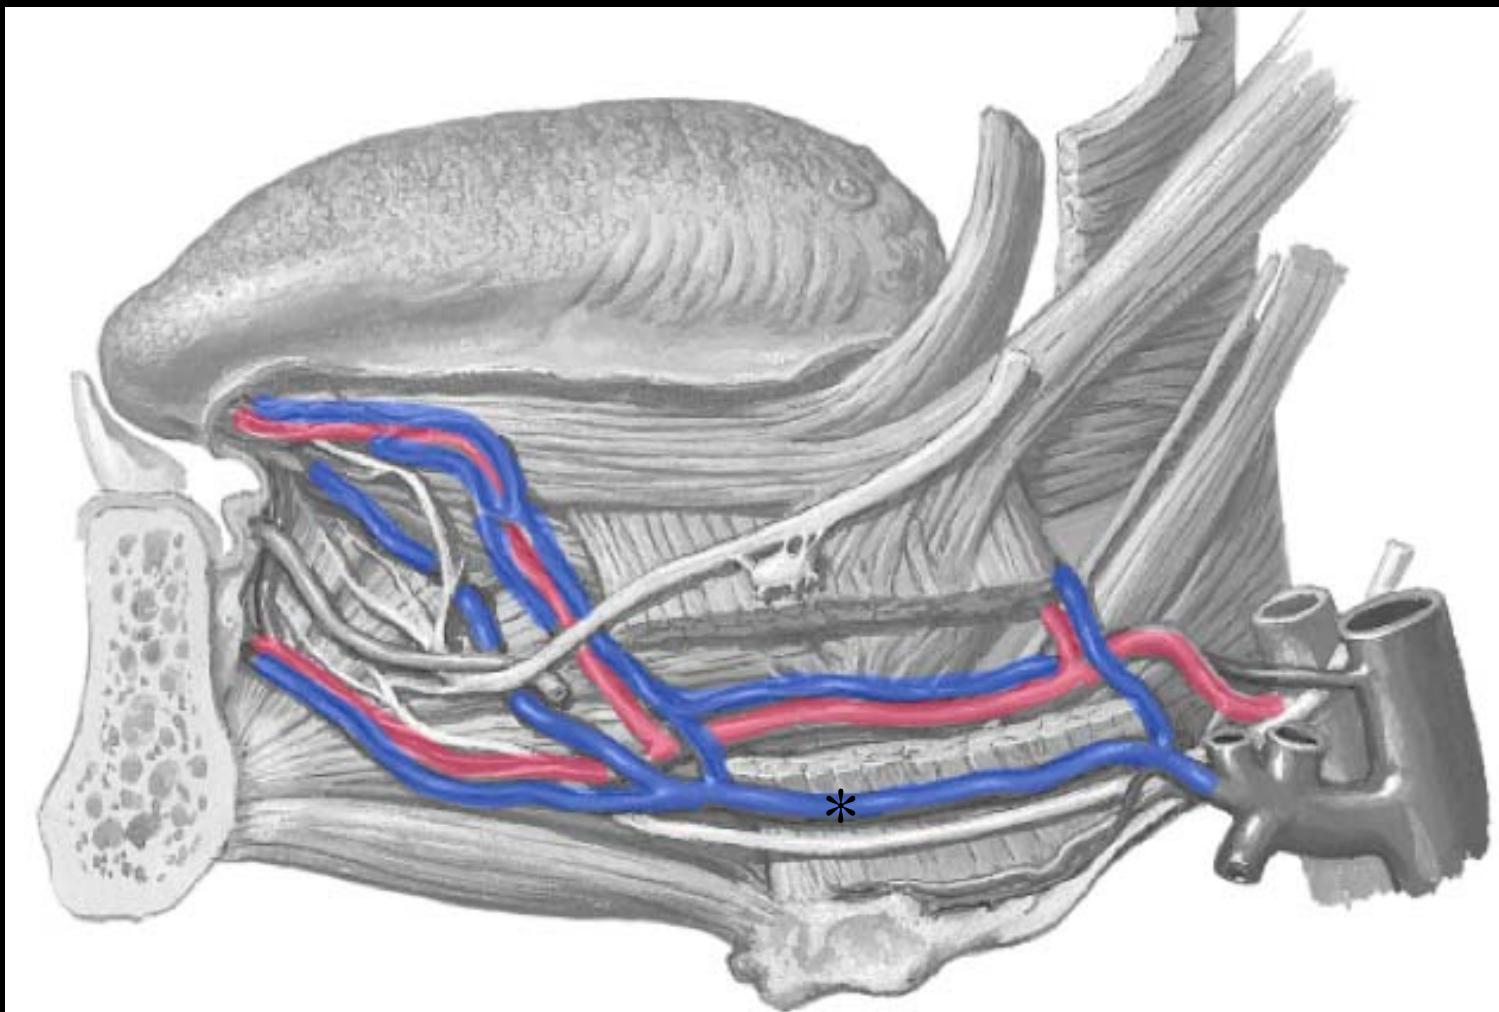

CN XII

2) Tongue - Innervation

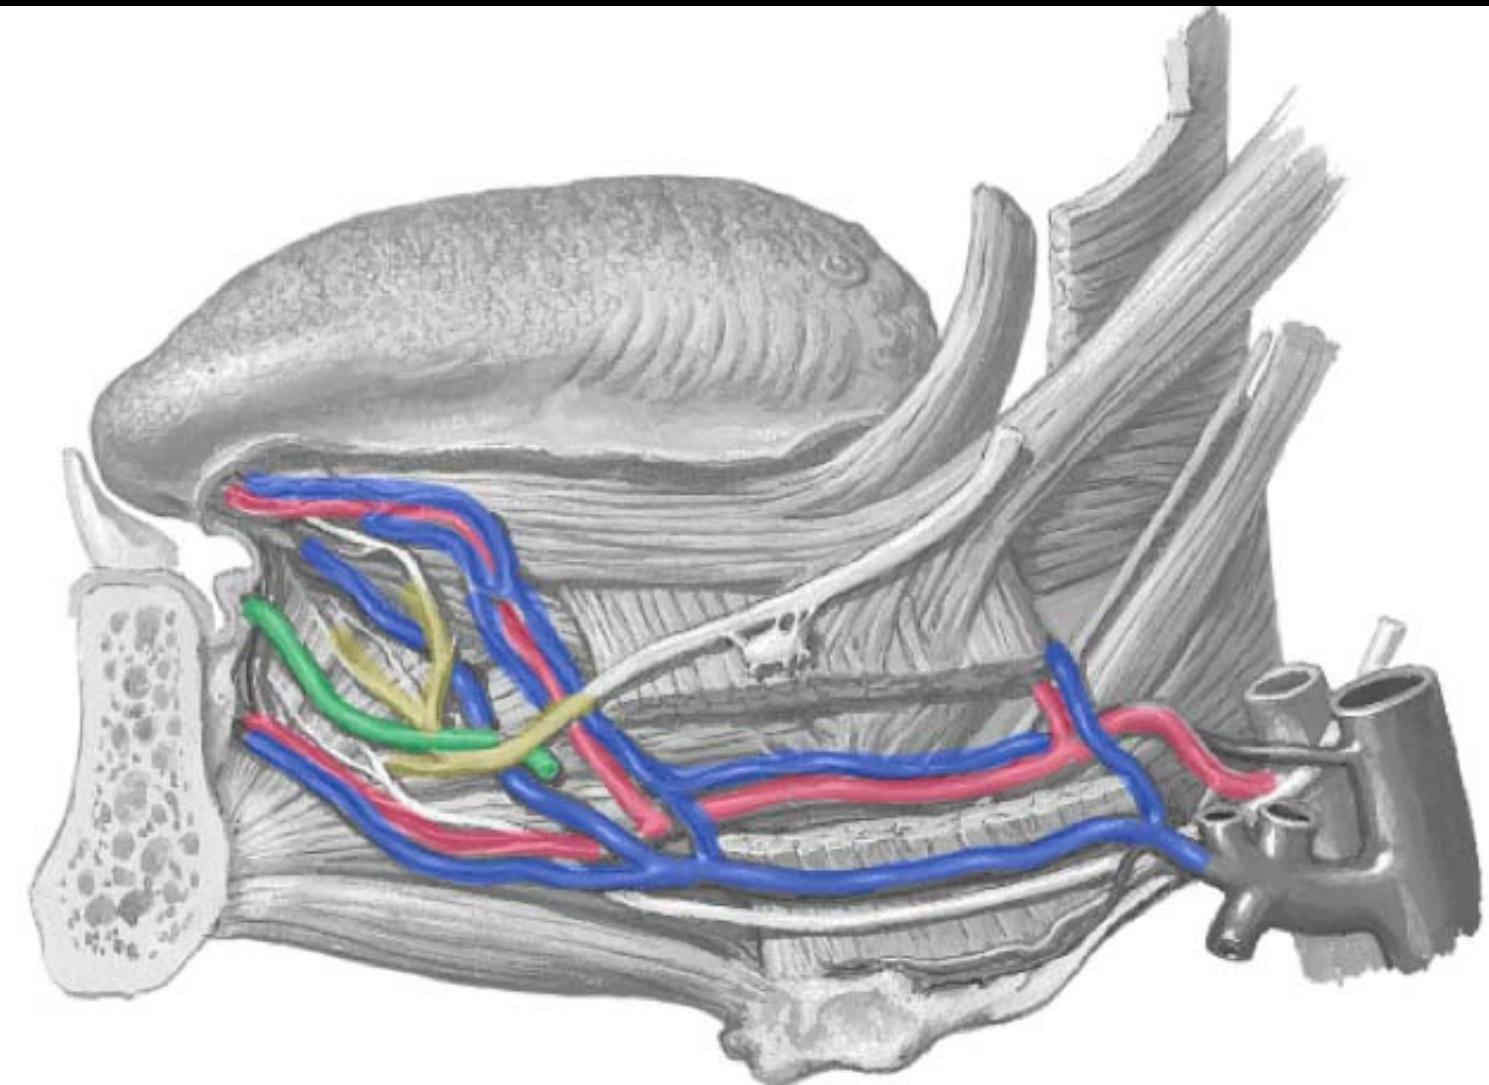

Lingual artery

Lingual vein

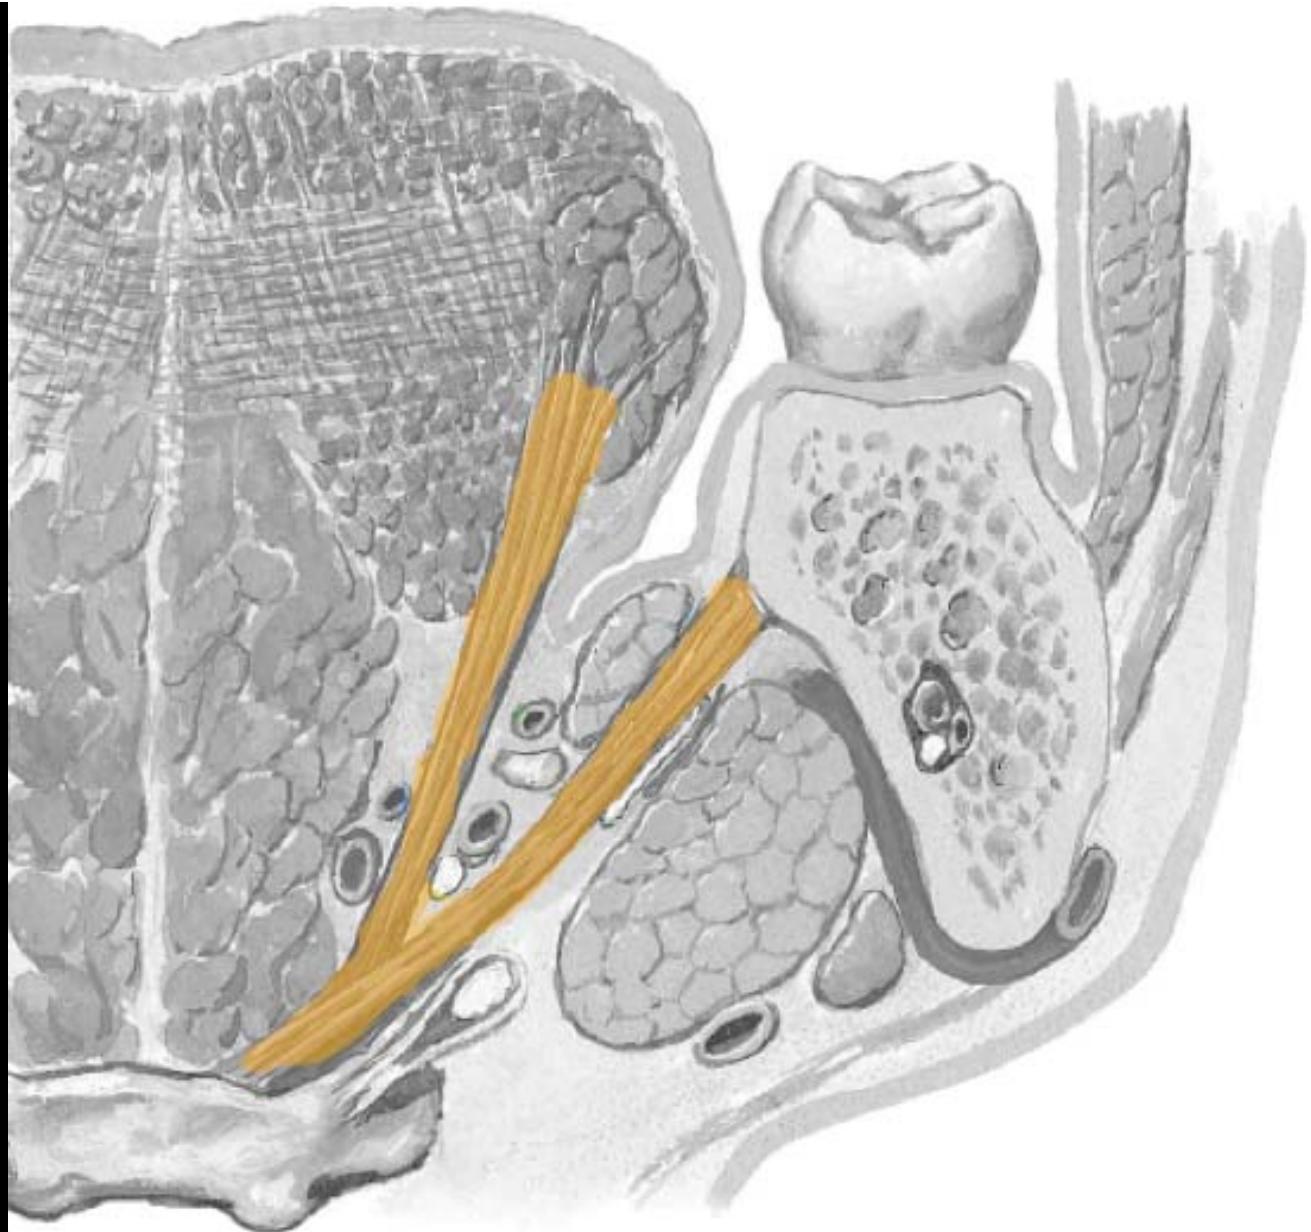

2) Tongue - Innervation

Submandibular duct

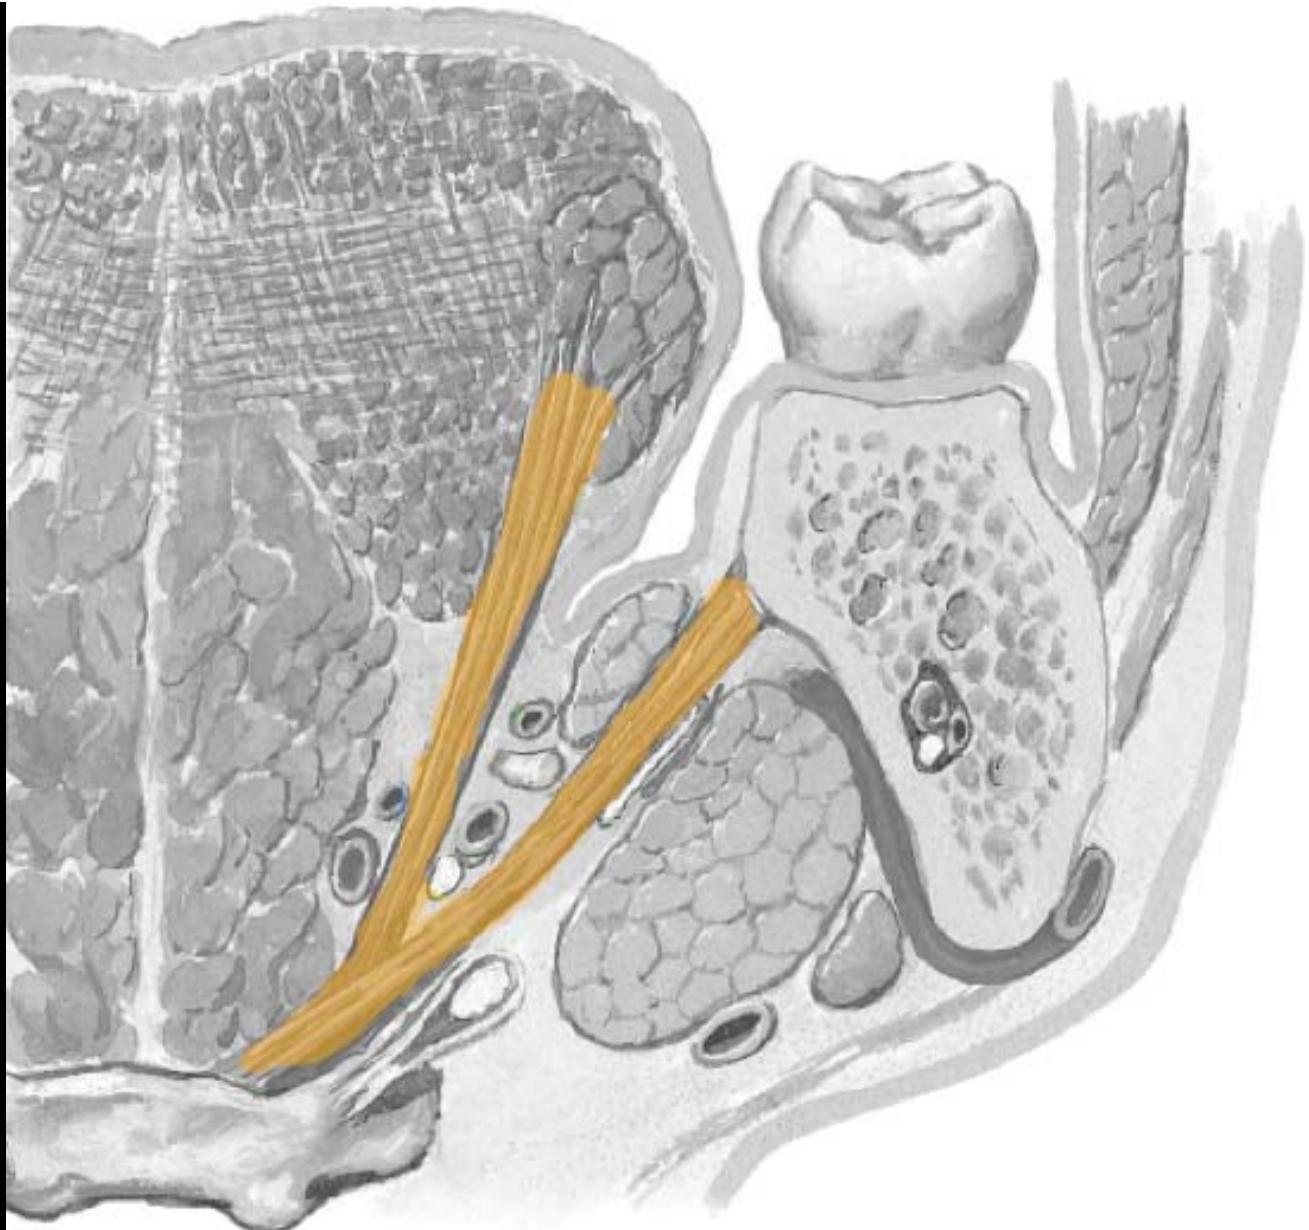

ID the muscles

Coronal Section; Anterior view

Mylohyoid m.
Hyoglossus m.

Coronal Section; Anterior view

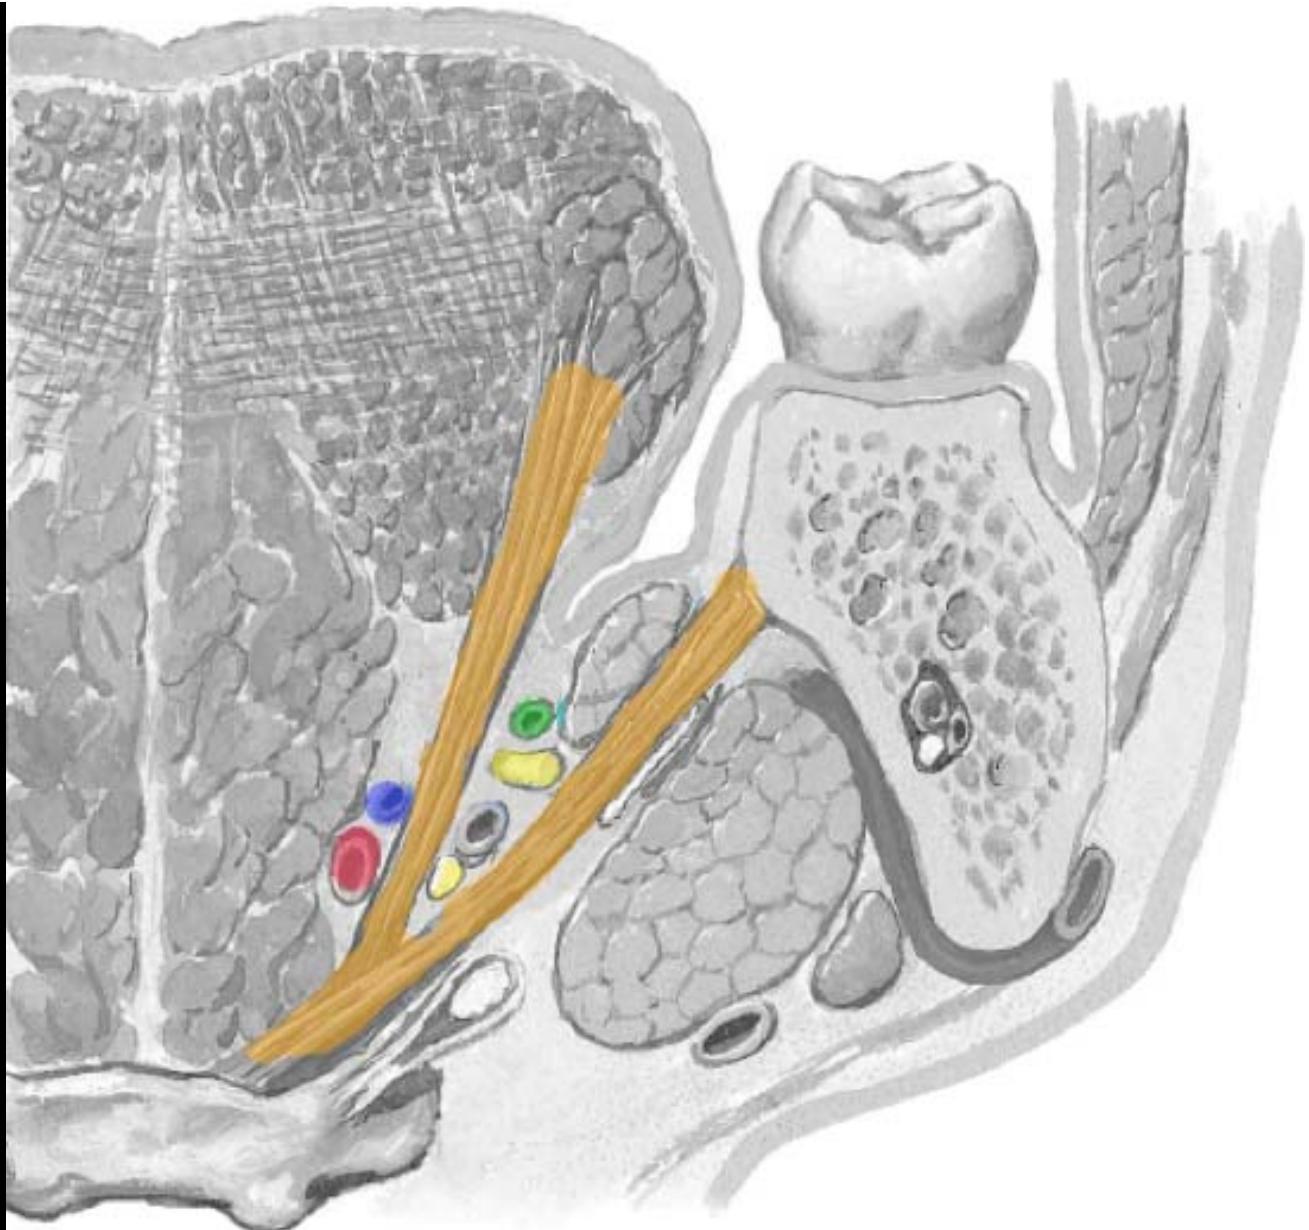

Lingual a.

Lingual v.

CN XII

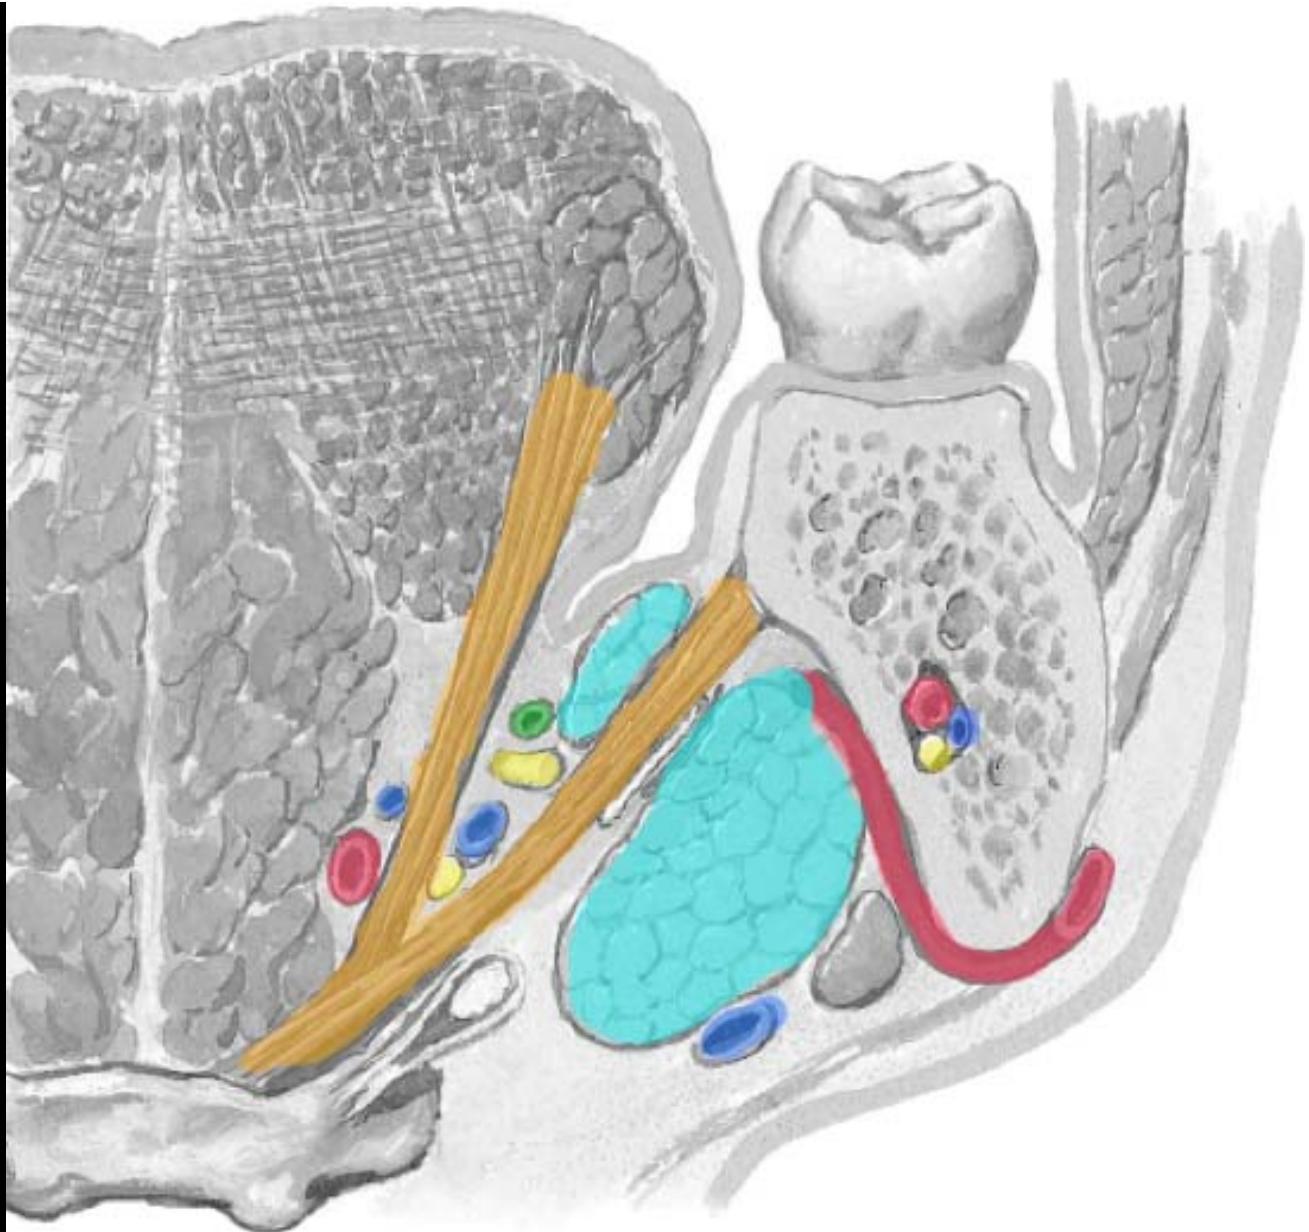

Submandibular duct

Lingual n. (V-3)

Coronal Section; Anterior view

ID the rest of the stuff

Coronal Section; Anterior view

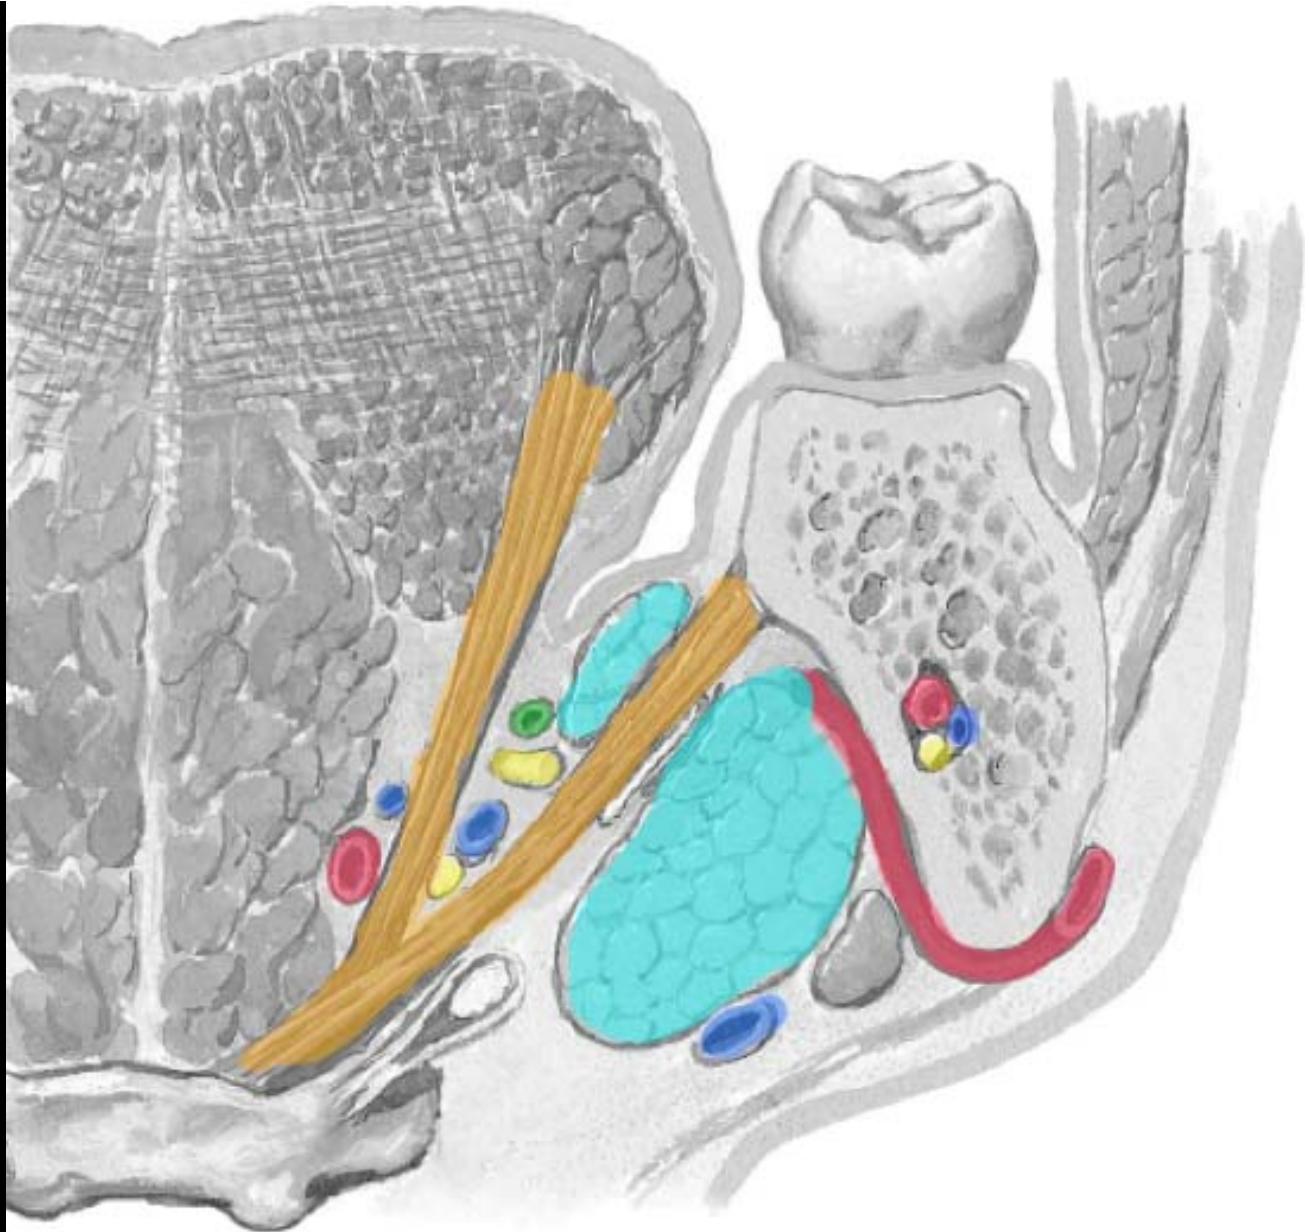

Inferior alveolar n.a.v.

Sublingual gland

Submandibular gland

Facial artery

Facial vein

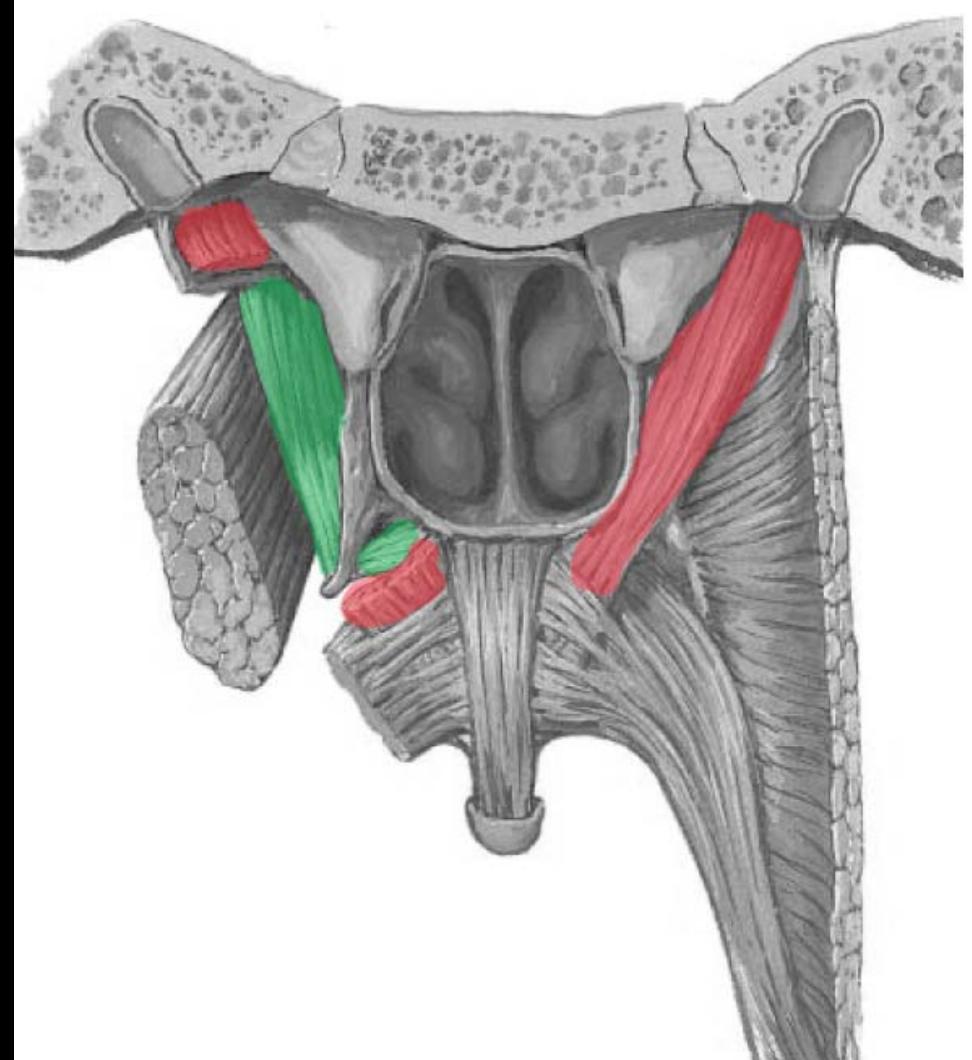

Coronal Section; Anterior view

Palate

Tensor veli palatini m.

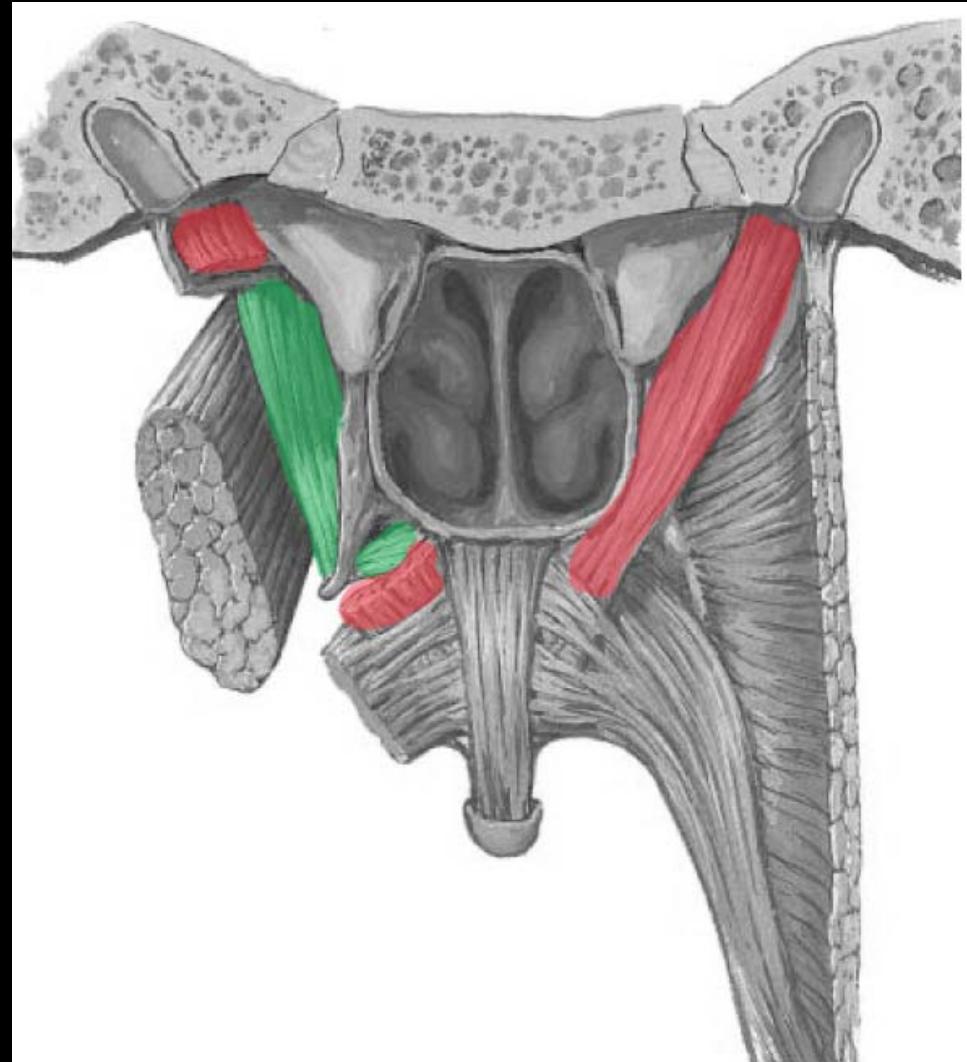

Levator veli palatini m.

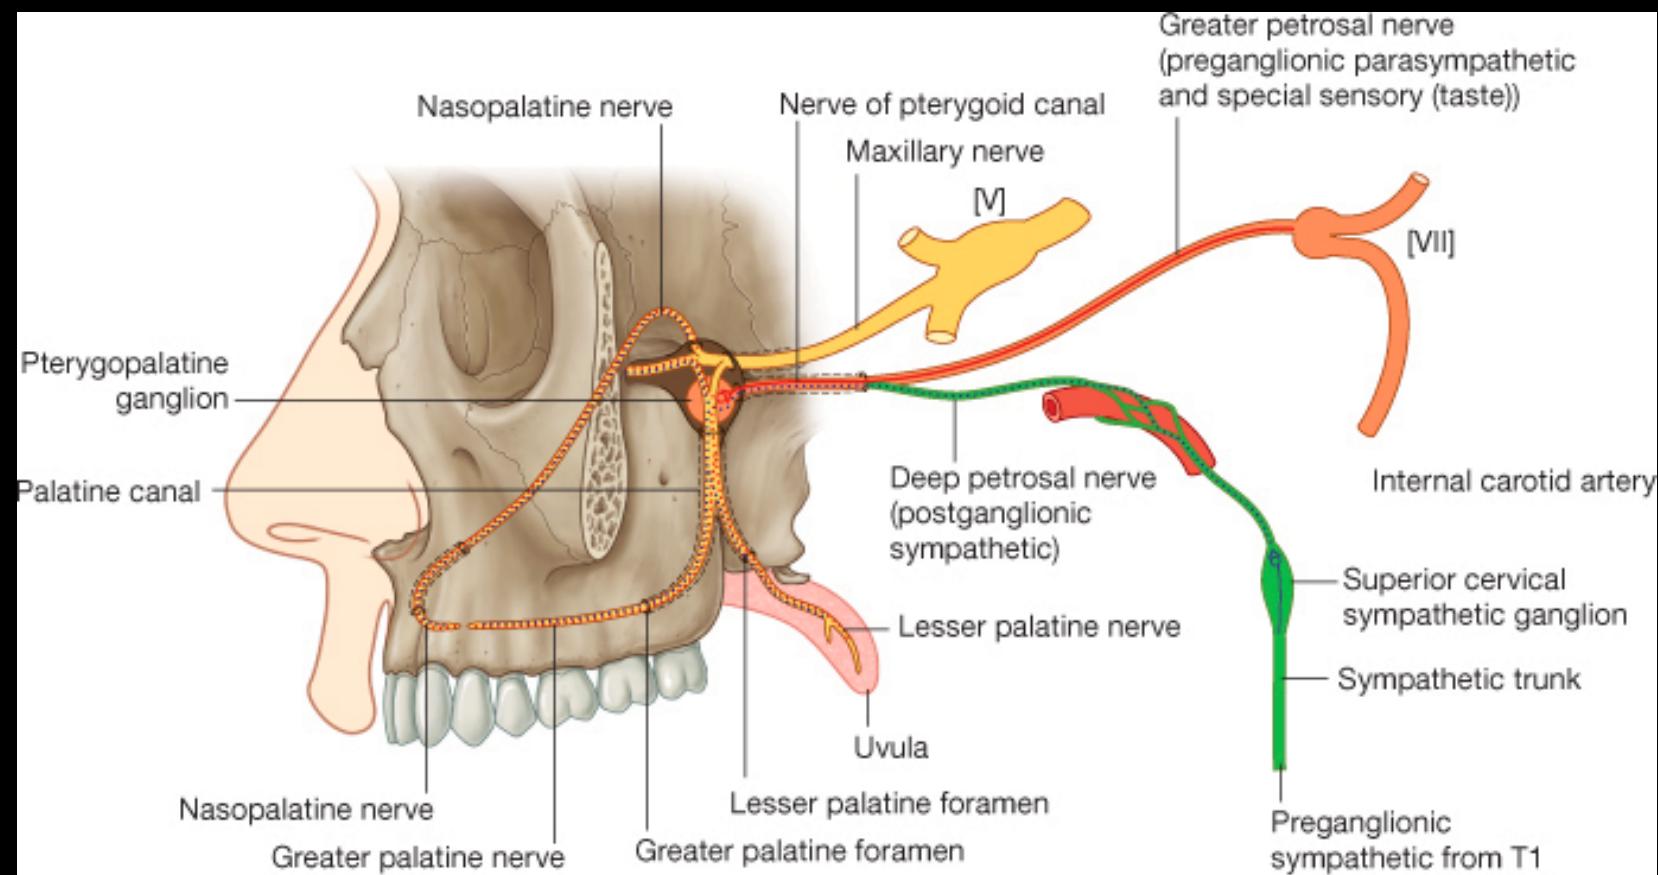

Palate

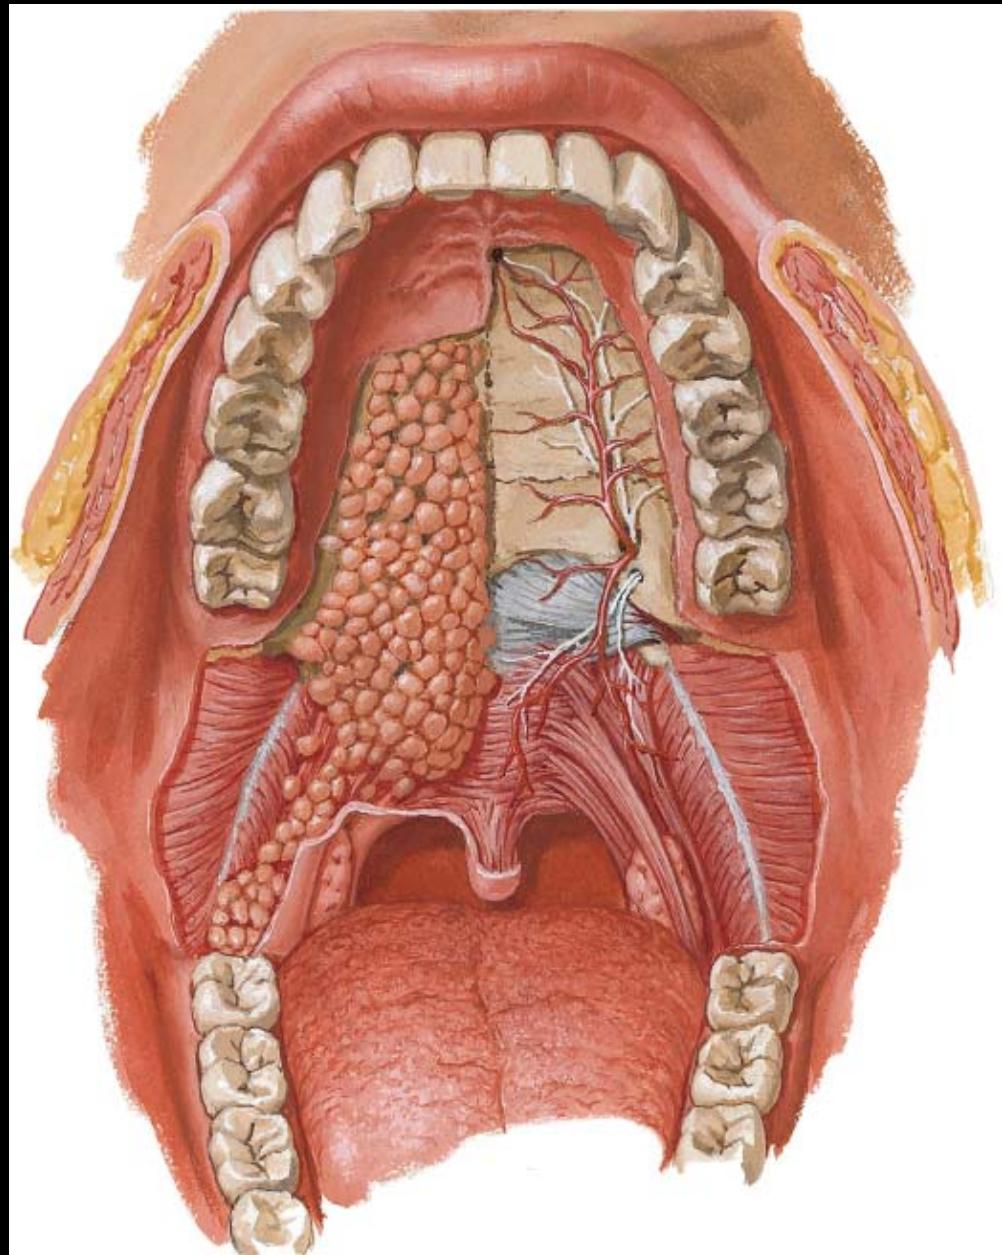

Tensor veli palatini m.
(CN V-3)

Levator veli palatini m.
(CN X)

Palate

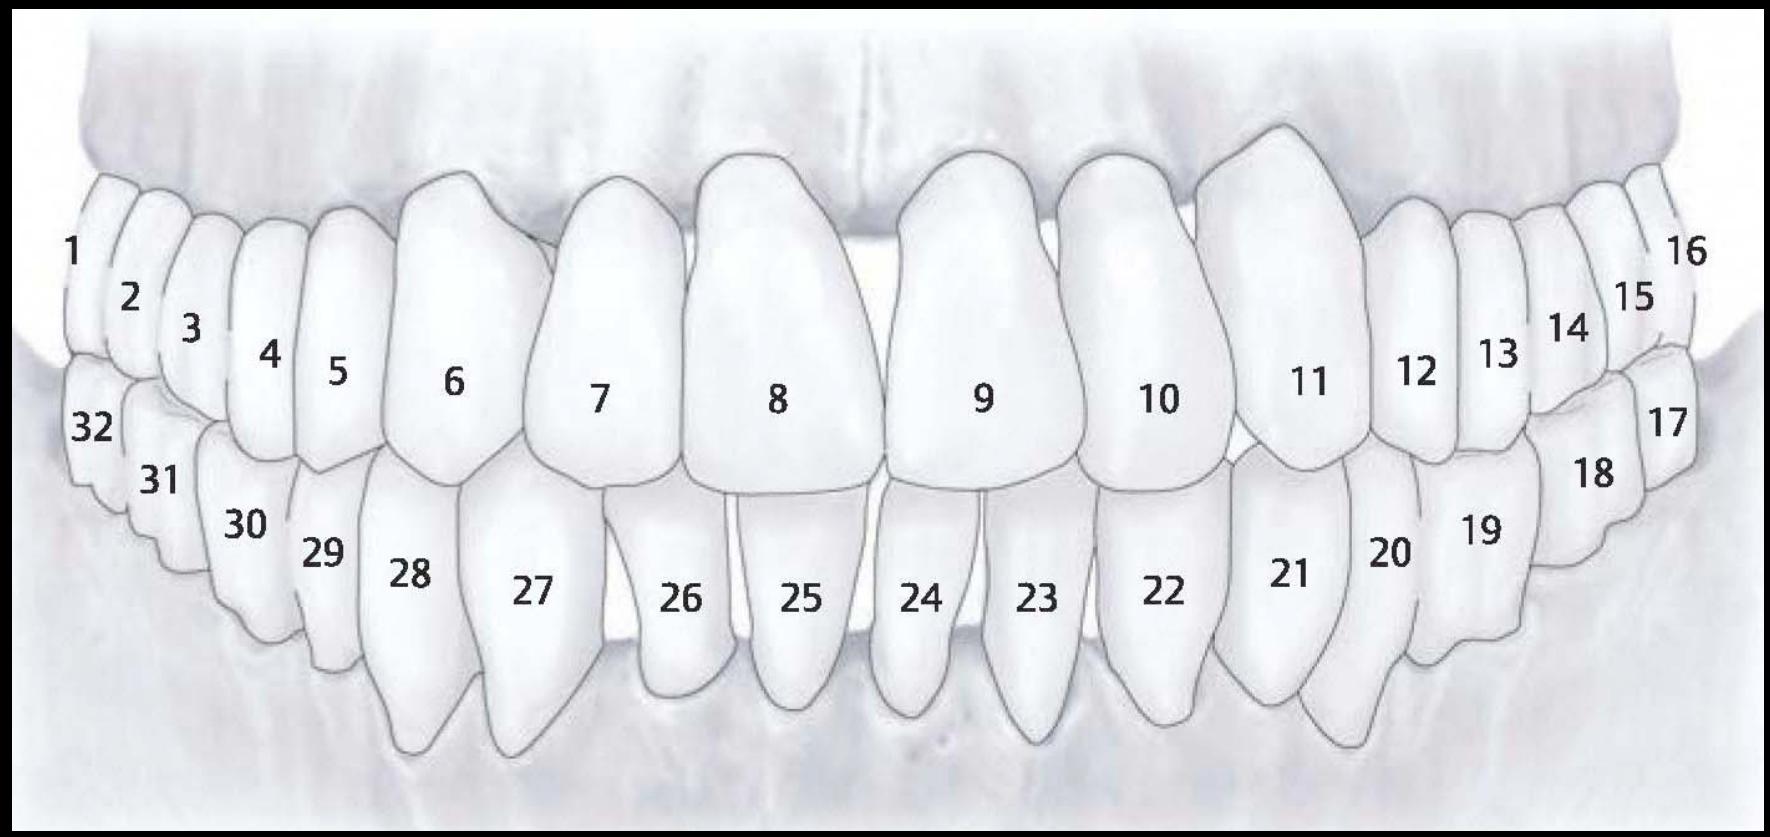

Anterior view; Hard and Soft Palates

A lesion to which cranial nerve will result in the following symptoms observed in this patient?

- A. Left CN V-3**
- B. Left CN IX**
- C. Left CN X**
- D. Right CN V-3**
- E. Right CN IX**
- F. Right CN X**

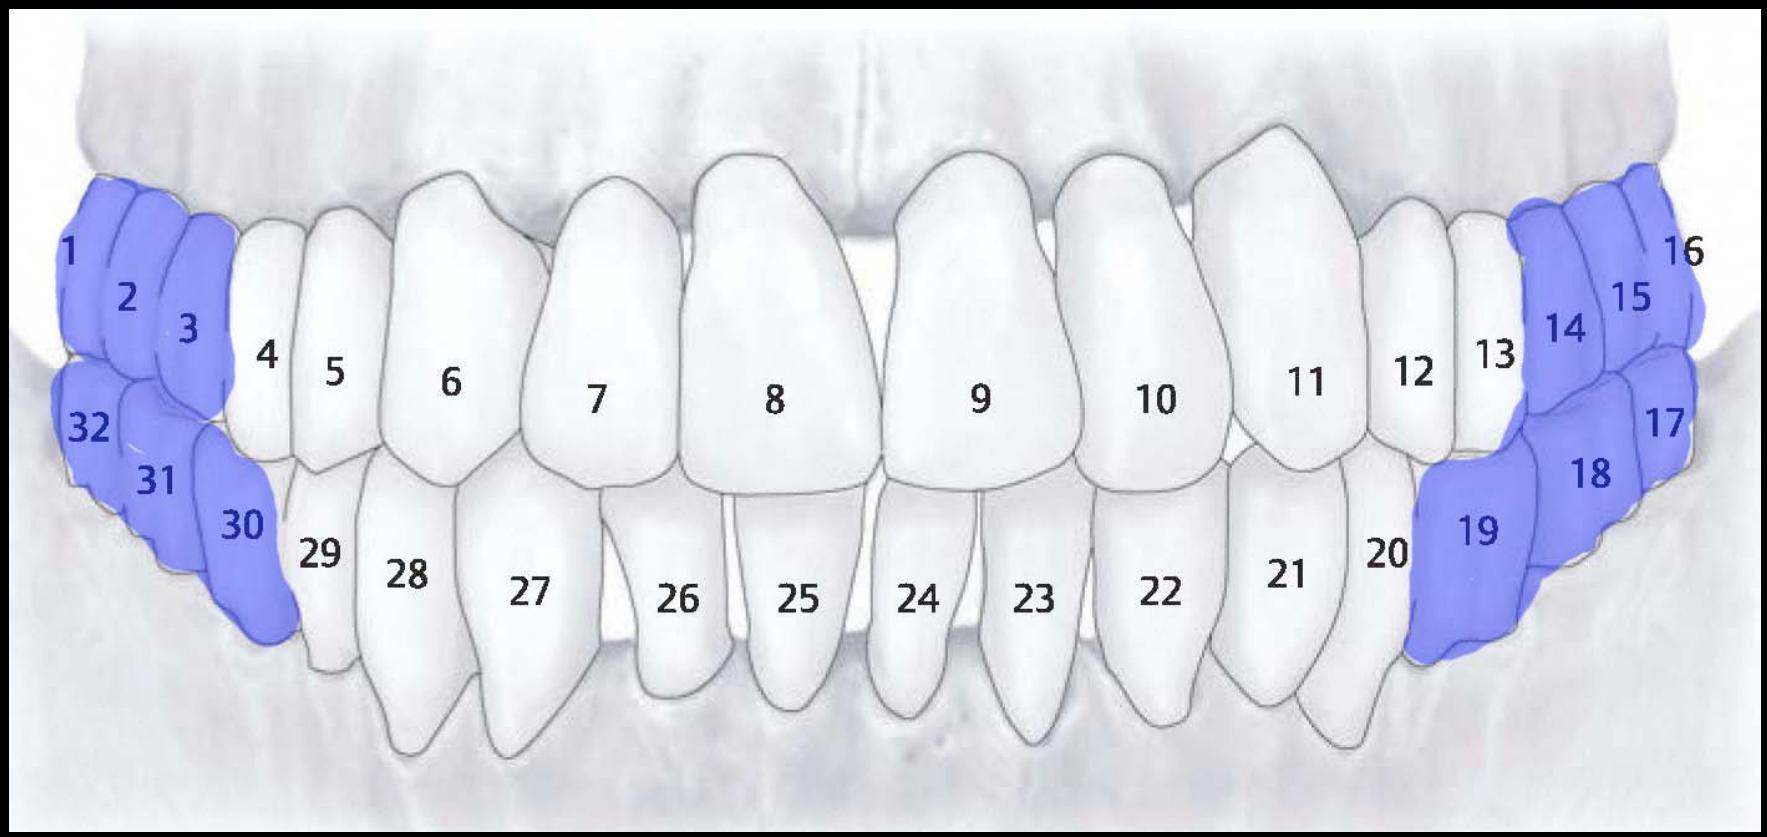

4) Teeth

Numbering

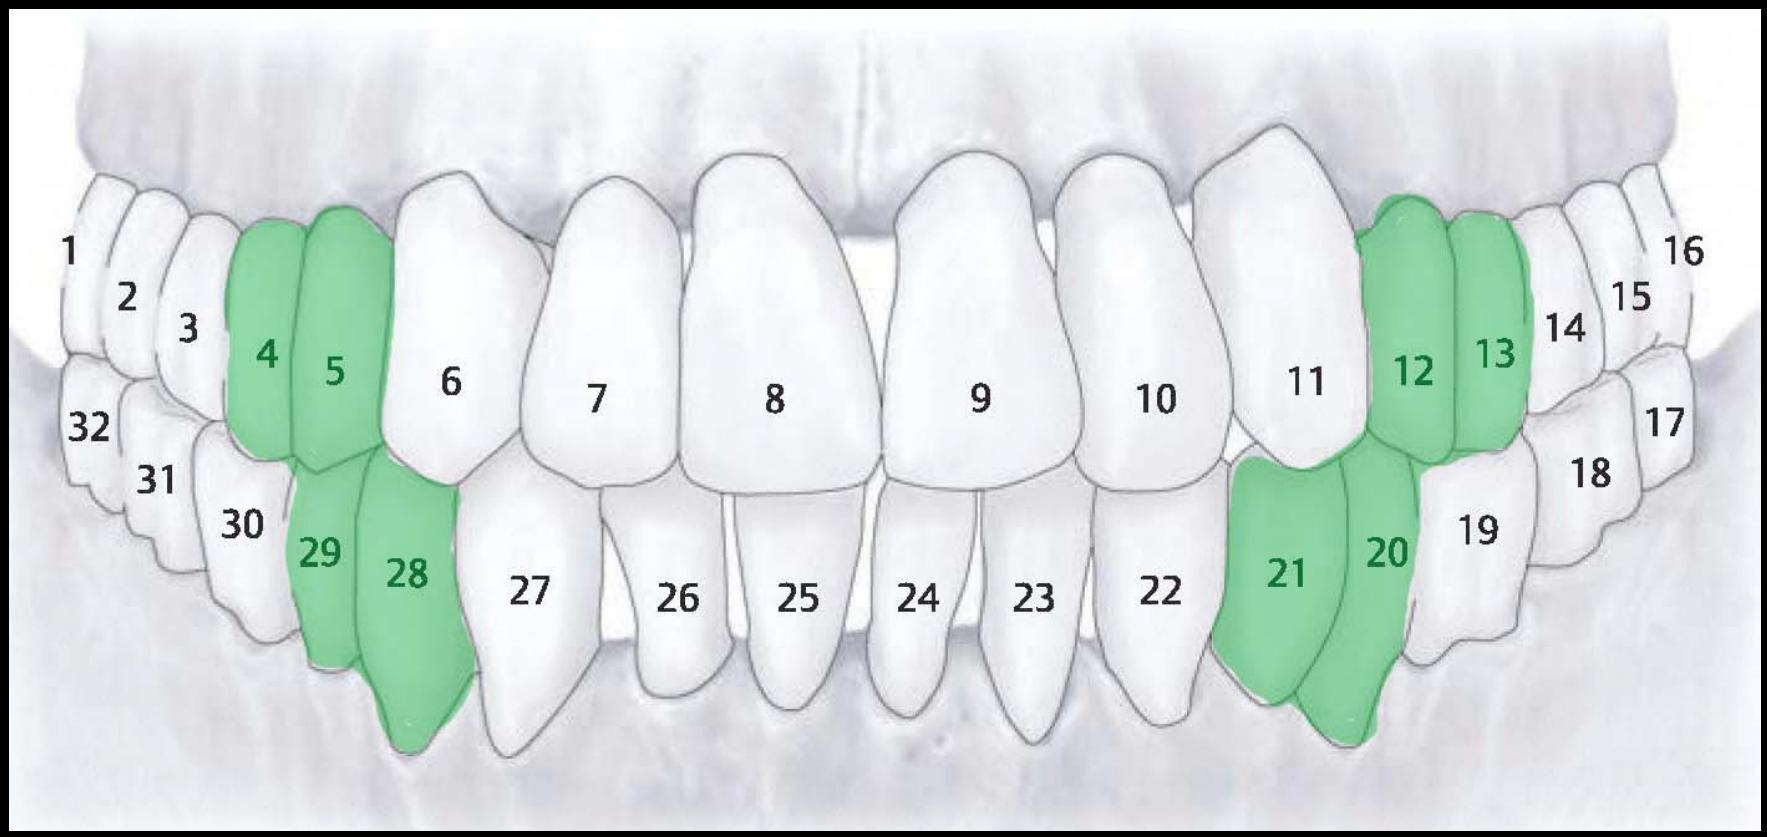

4) Teeth

Molars

4) Teeth

Premolars

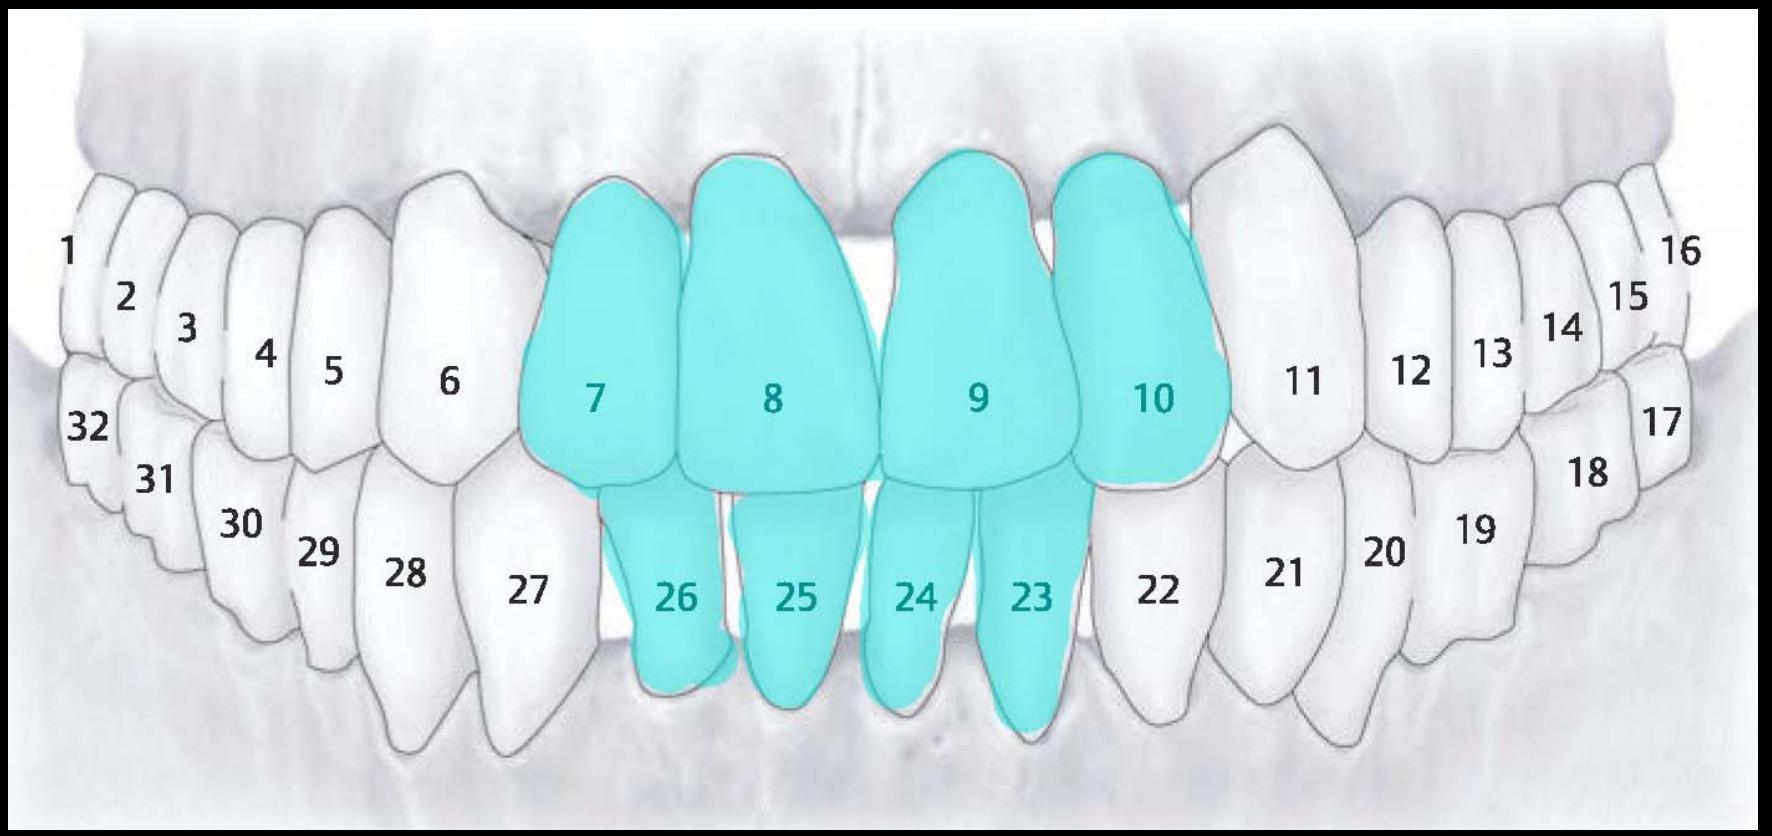

4) Teeth

Canines

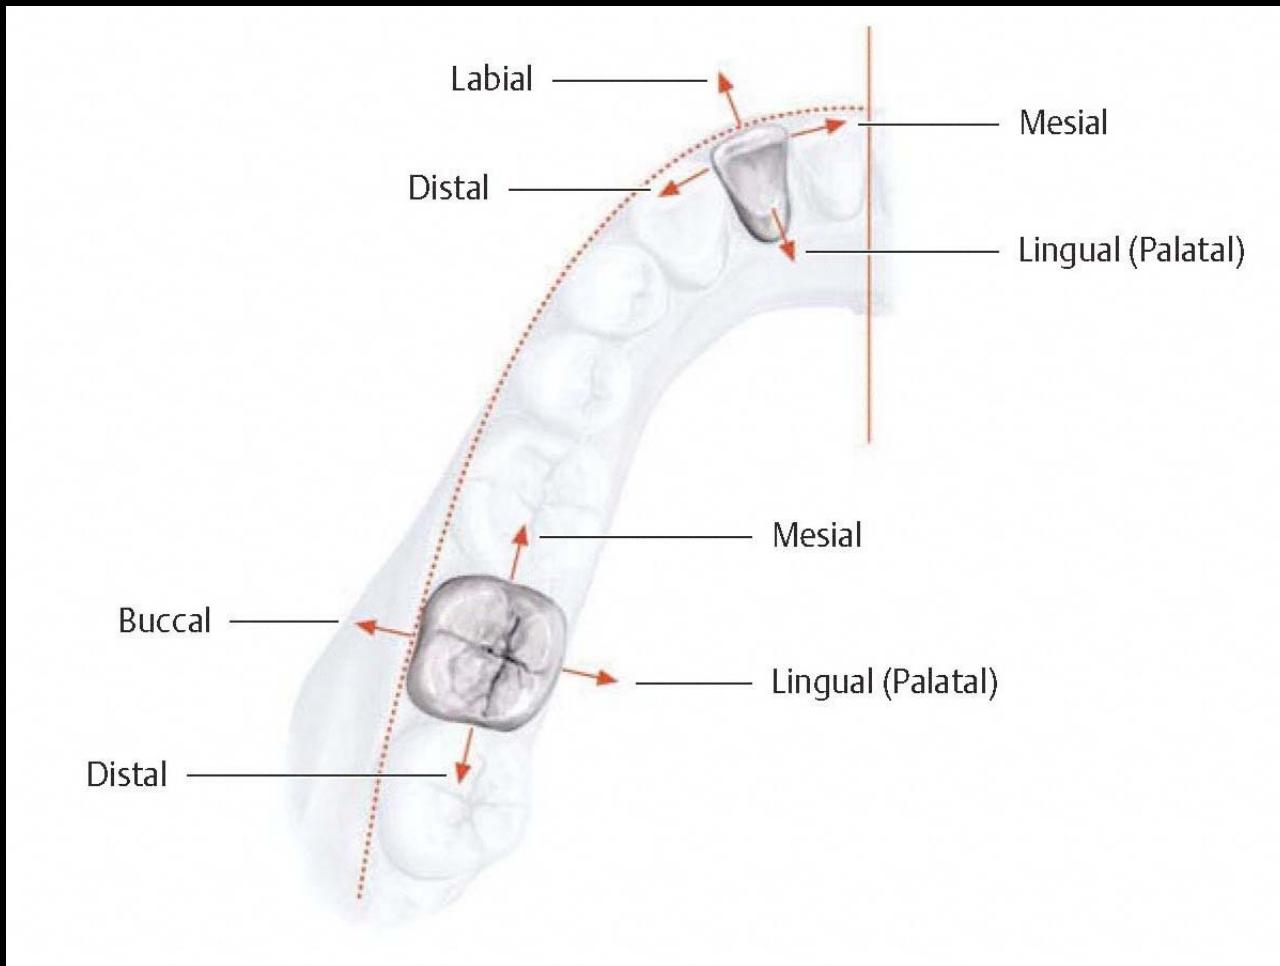

4) Teeth

Incisors

4) Teeth

Directional terms

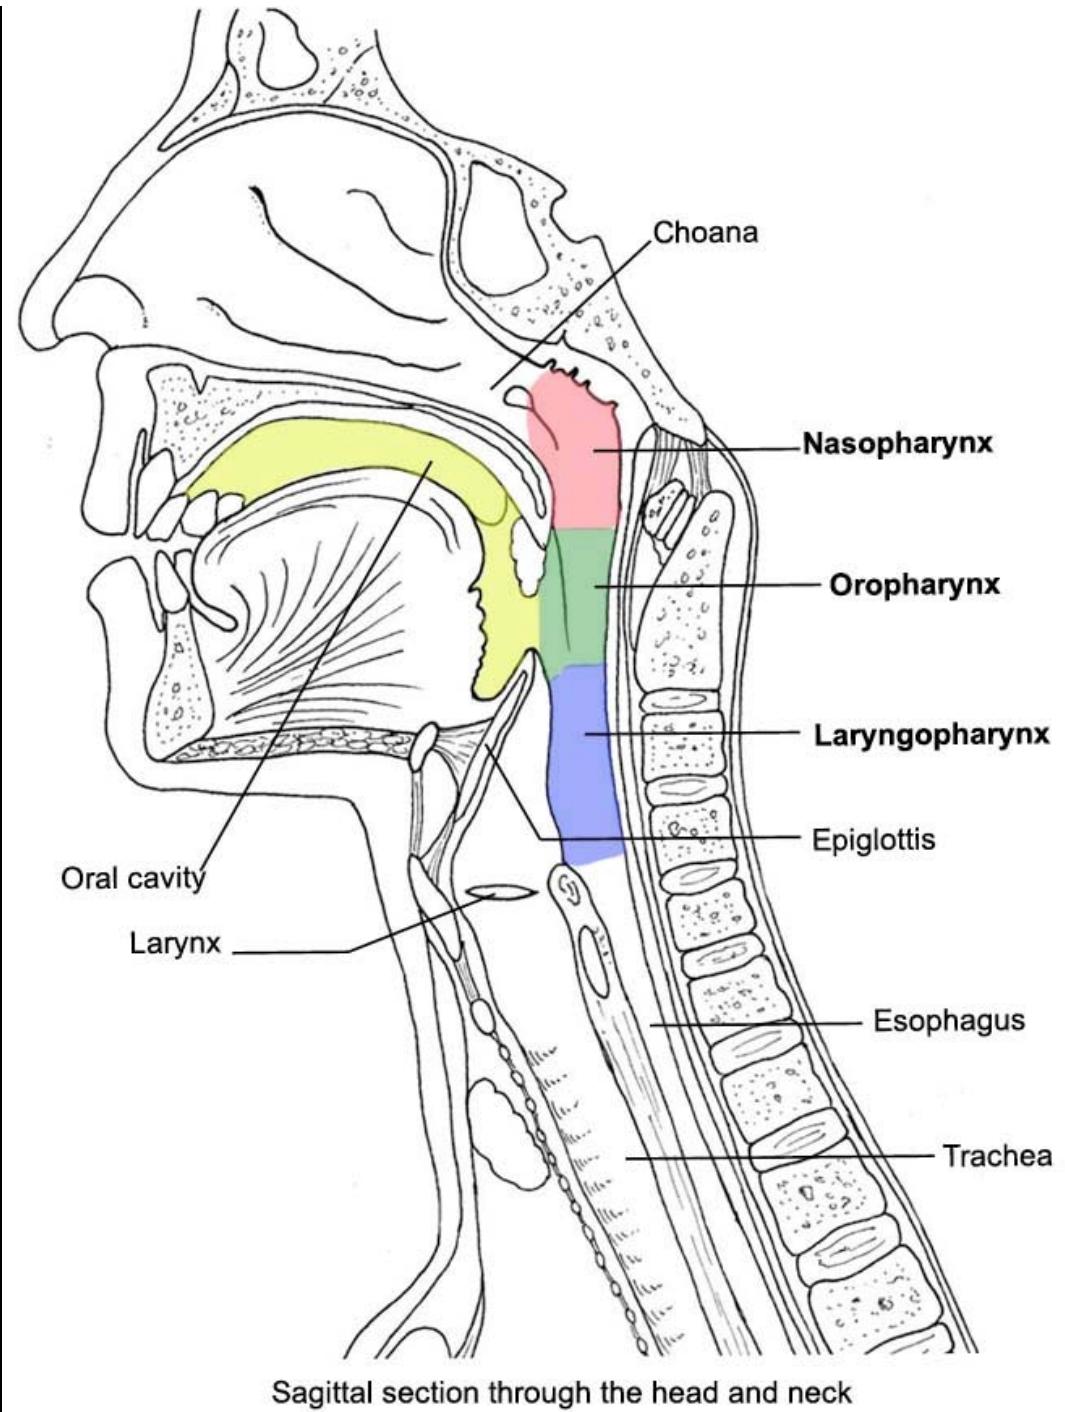

Start G21B

- go to page 75

1) Pharynx

Regions

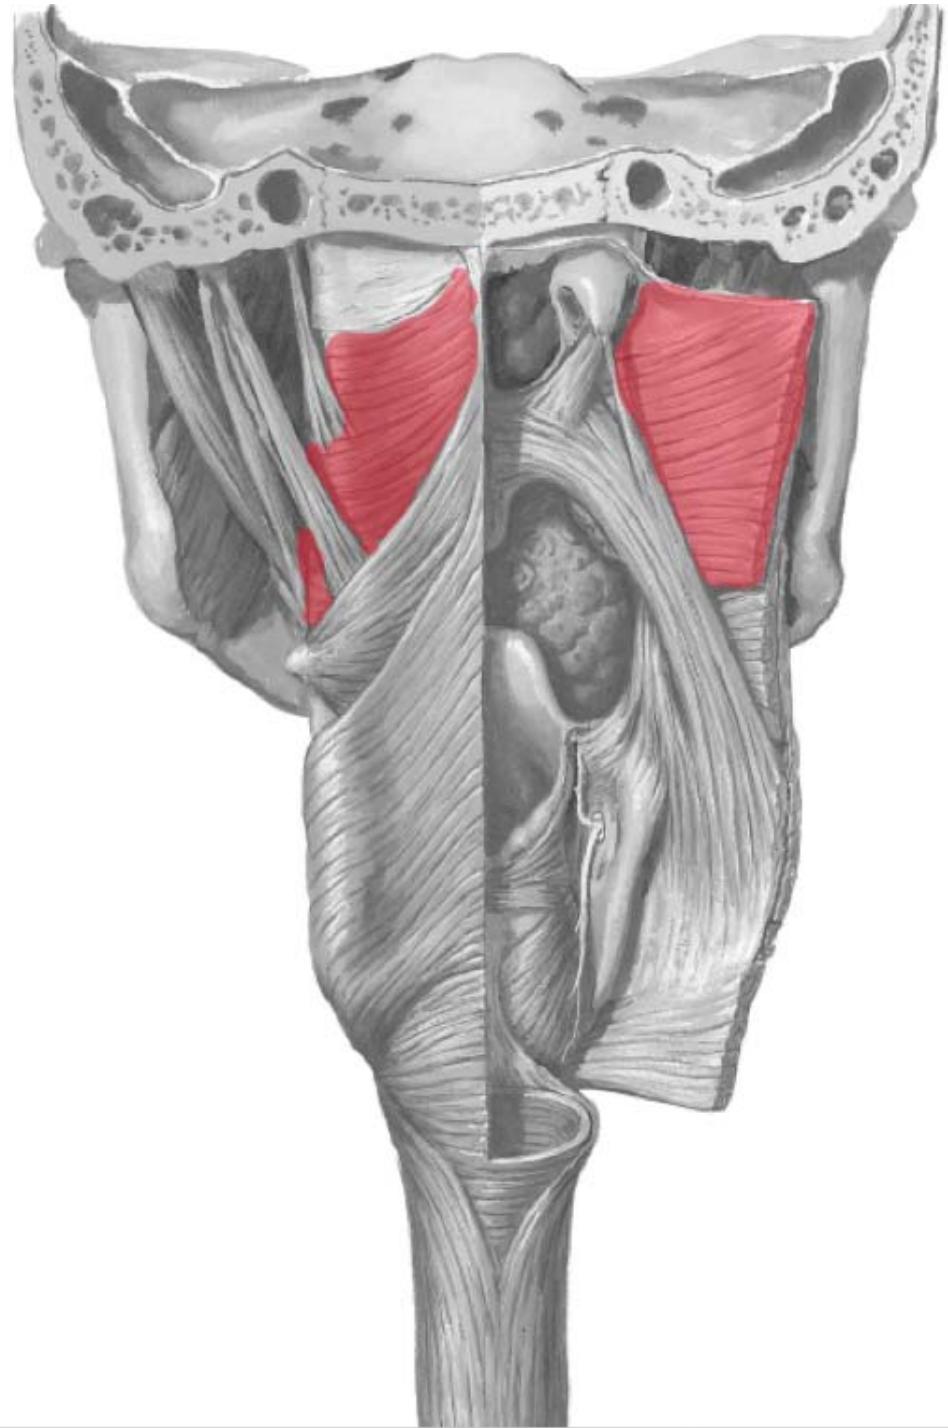

- Nasopharynx
- Oropharynx
- Laryngopharynx

1) Pharynx

Muscles

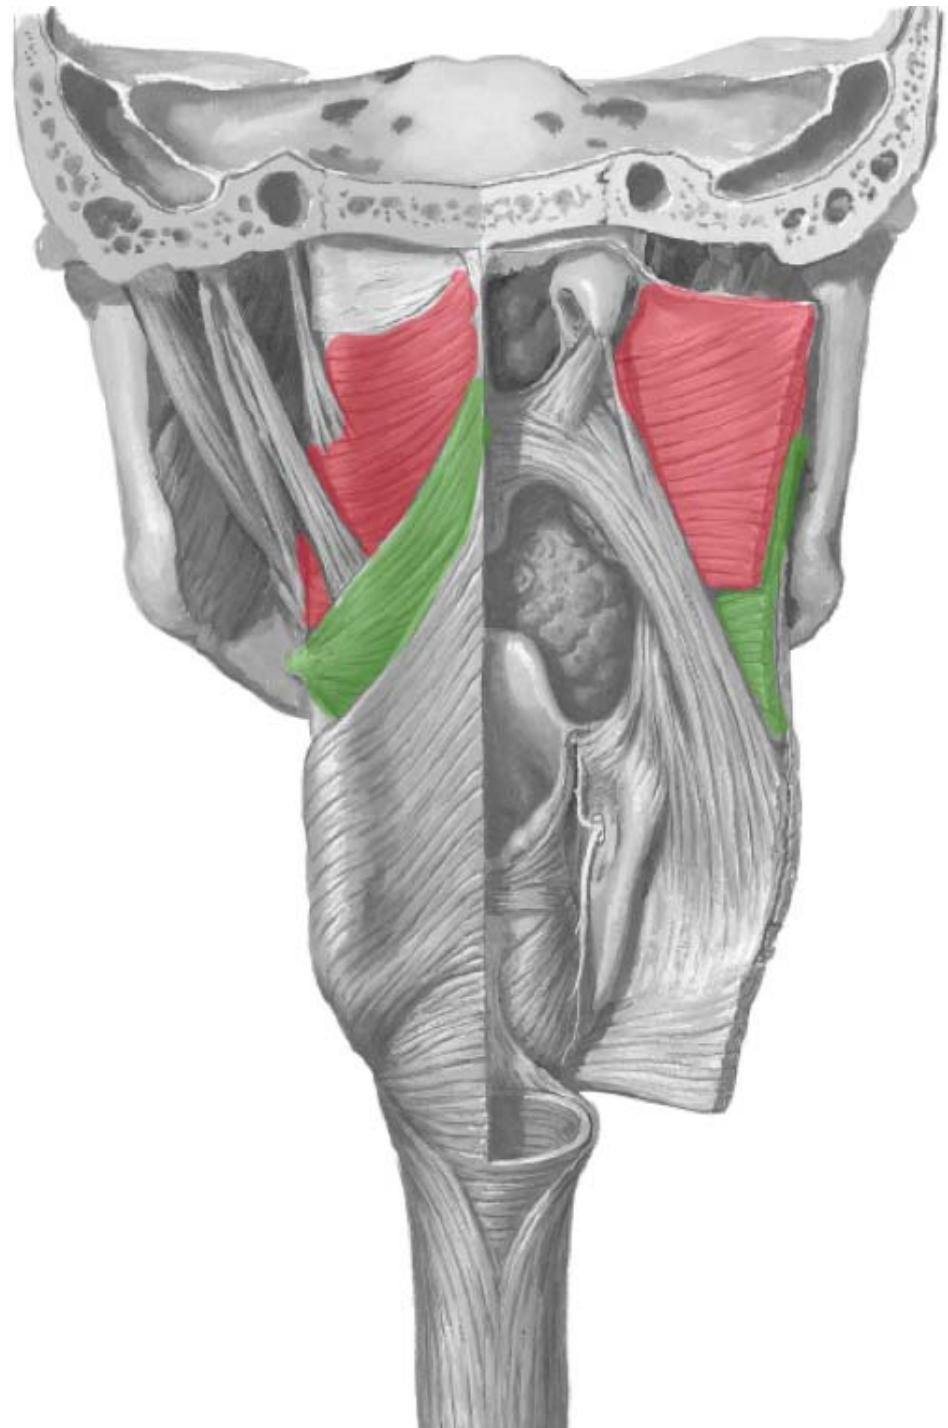

- Superior pharyn.
constrictor
- Middle pharyn.
constrictor
- Inferior pharyn.
constrictor

1) Pharynx

Muscles

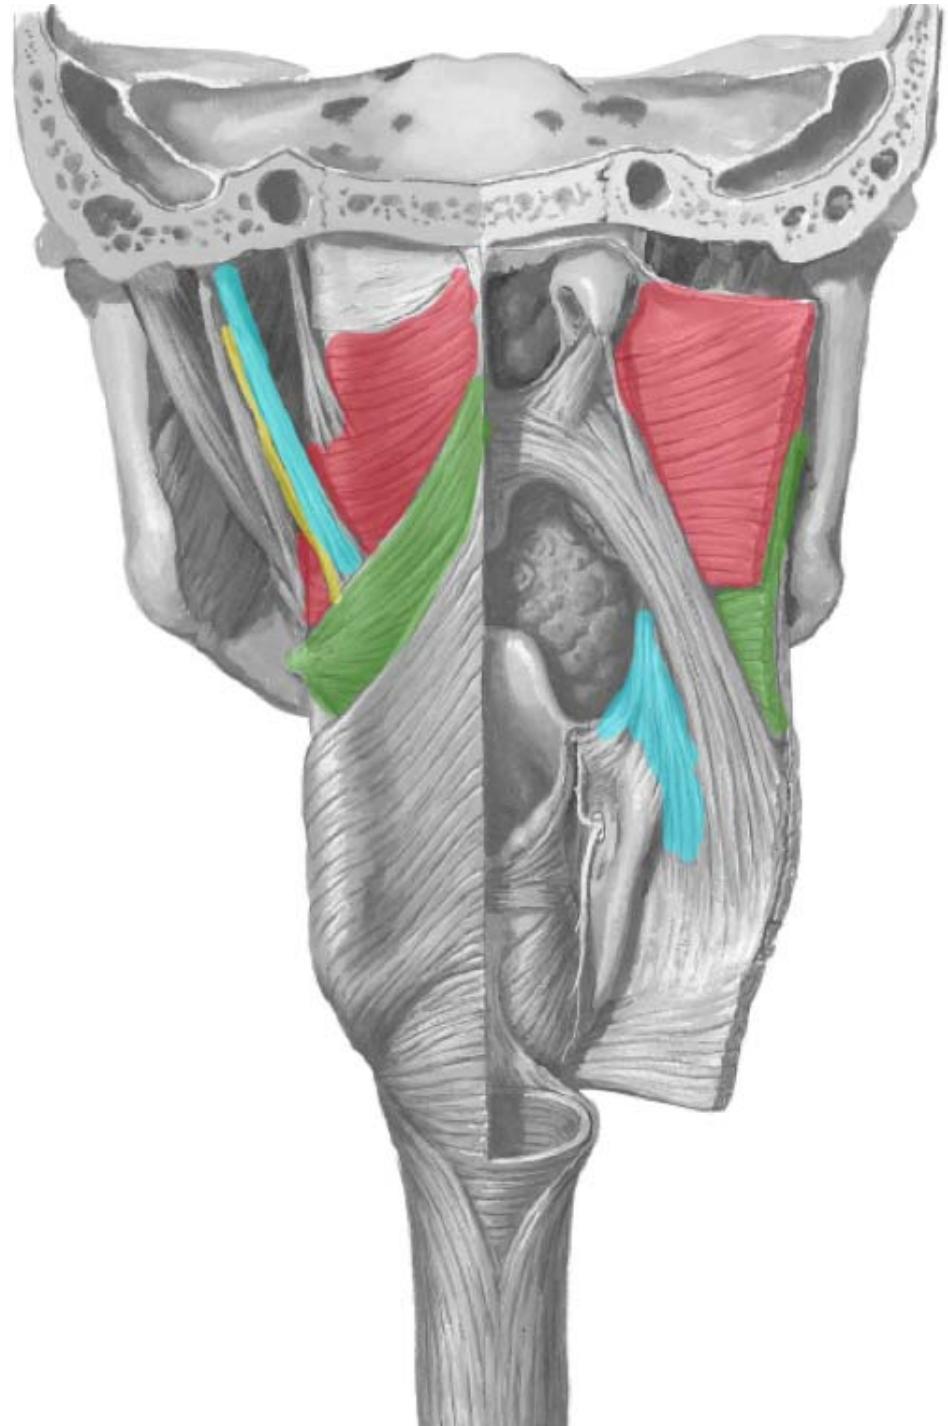

- Superior pharyn.
constrictor
- Middle pharyn.
constrictor
- Inferior pharyn.
constrictor

1) Pharynx

Muscles

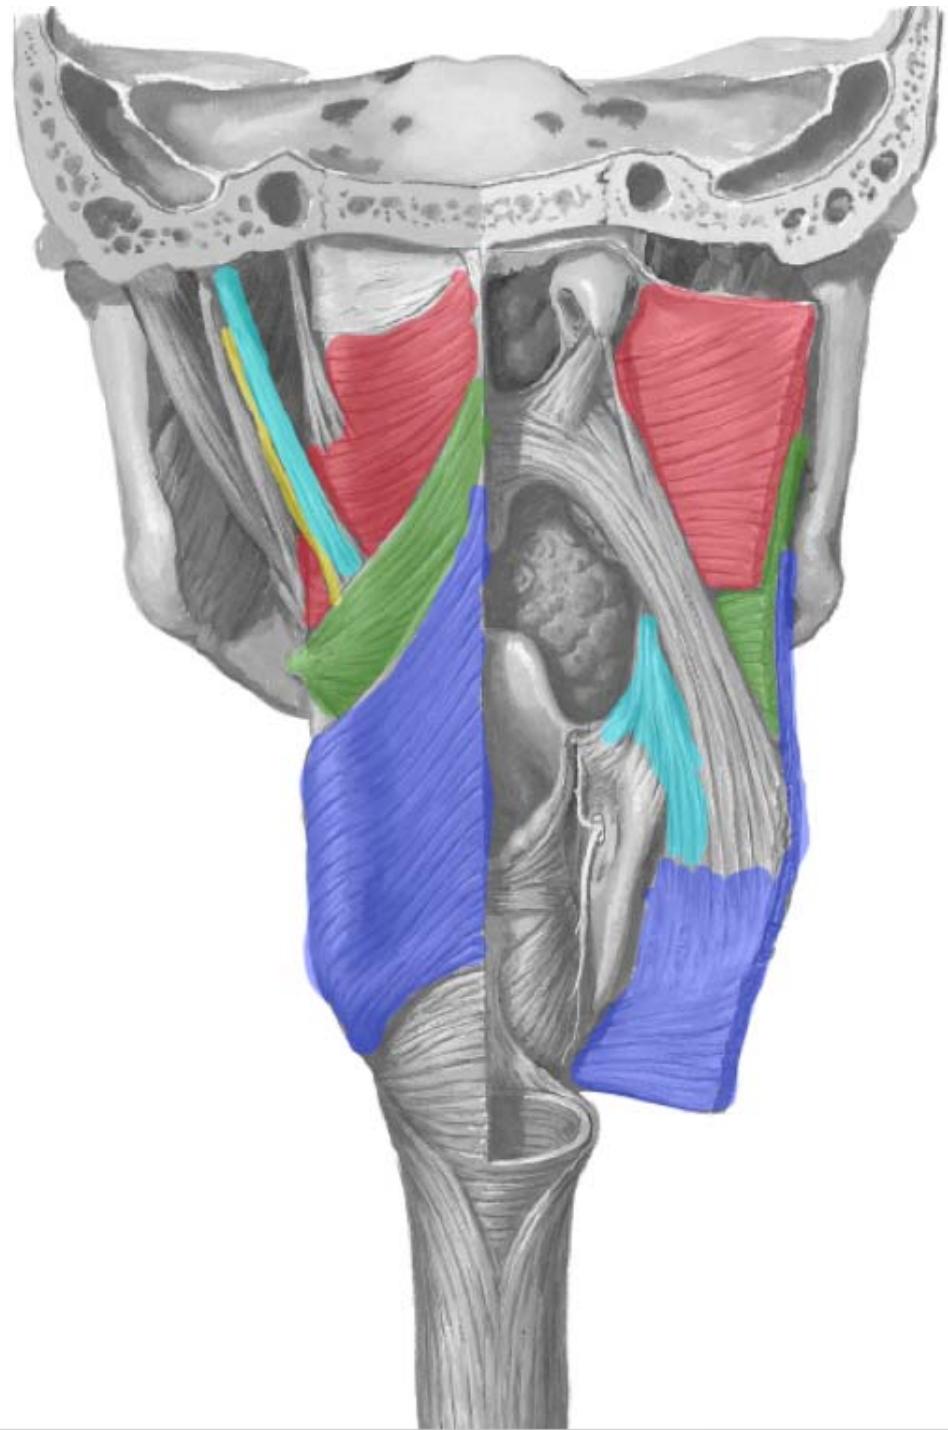

- Superior pharyn.
constrictor
- Middle pharyn.
constrictor
- Inferior pharyn.
constrictor

1) Pharynx

Muscles

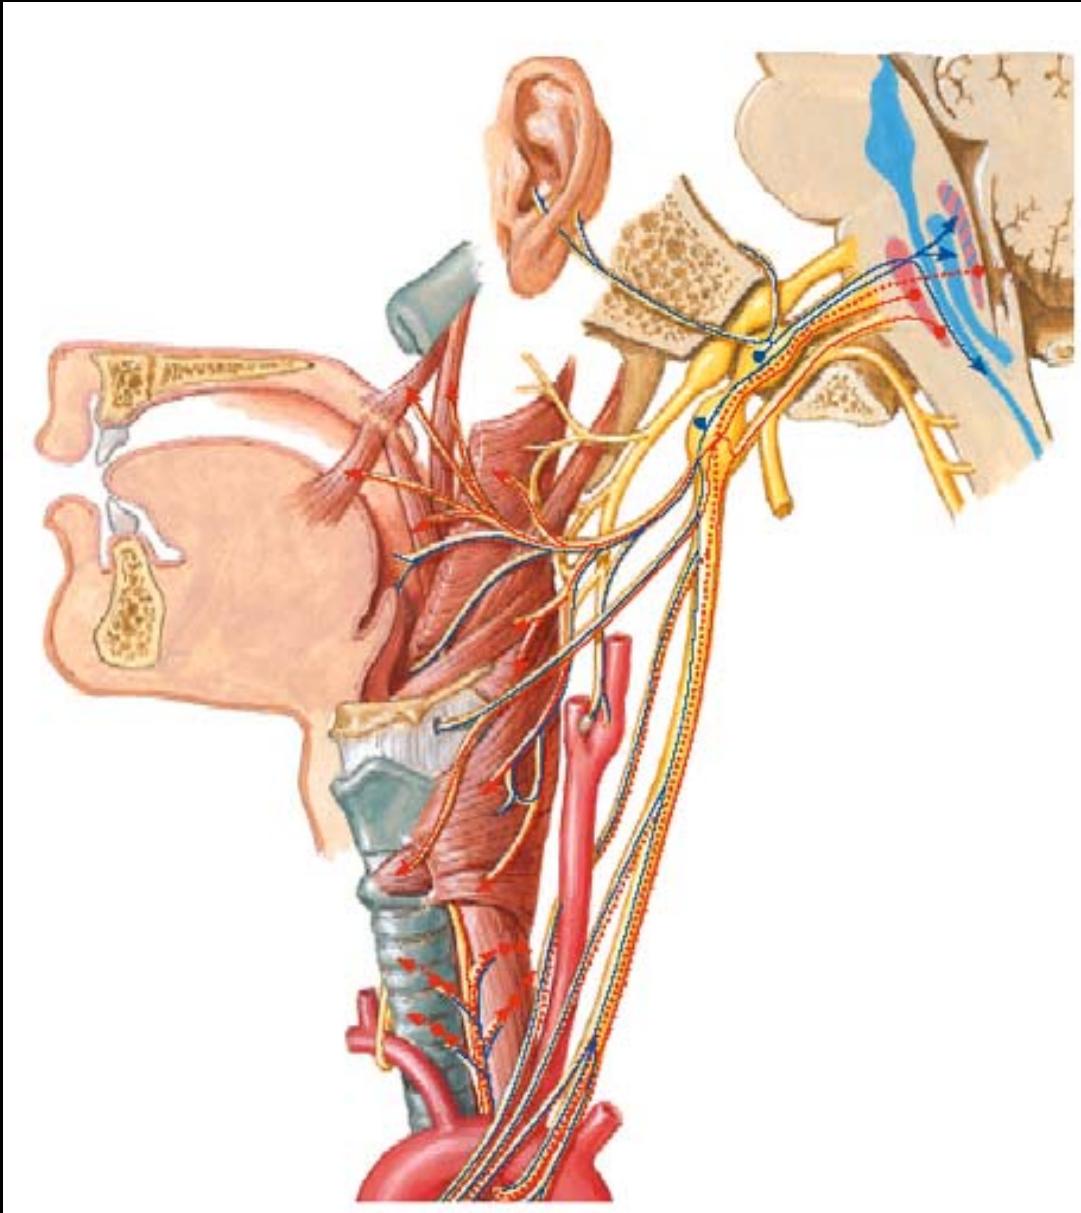

- Superior pharyn.
constrictor
- Middle pharyn.
constrictor
- Inferior pharyn.
constrictor

1) Pharynx

Muscles

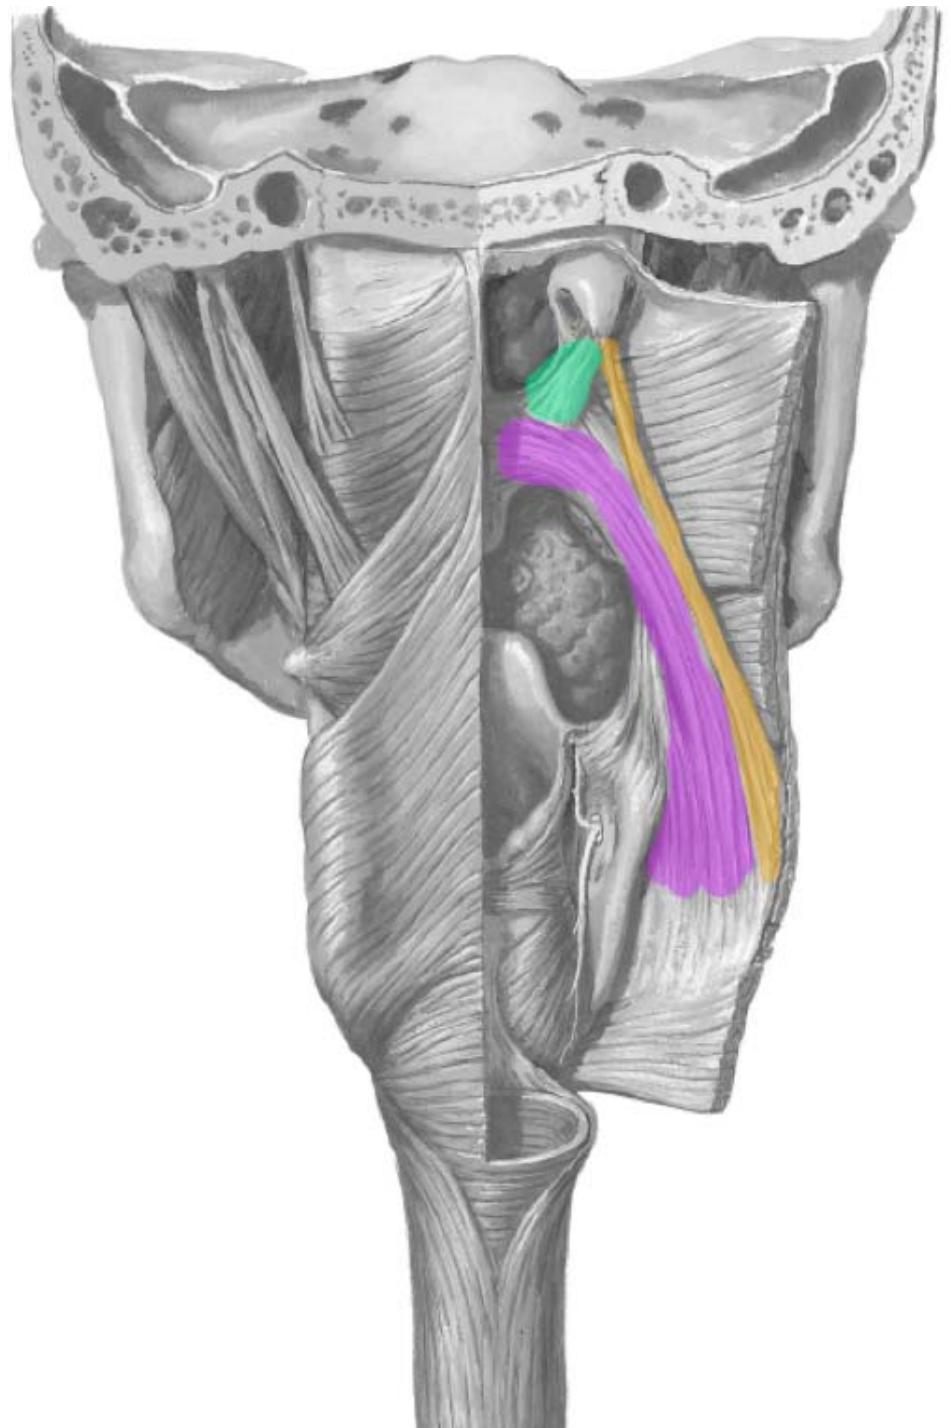

- Superior pharyn.
constrictor
- Middle pharyn.
constrictor
- Inferior pharyn.
constrictor

1) Pharynx

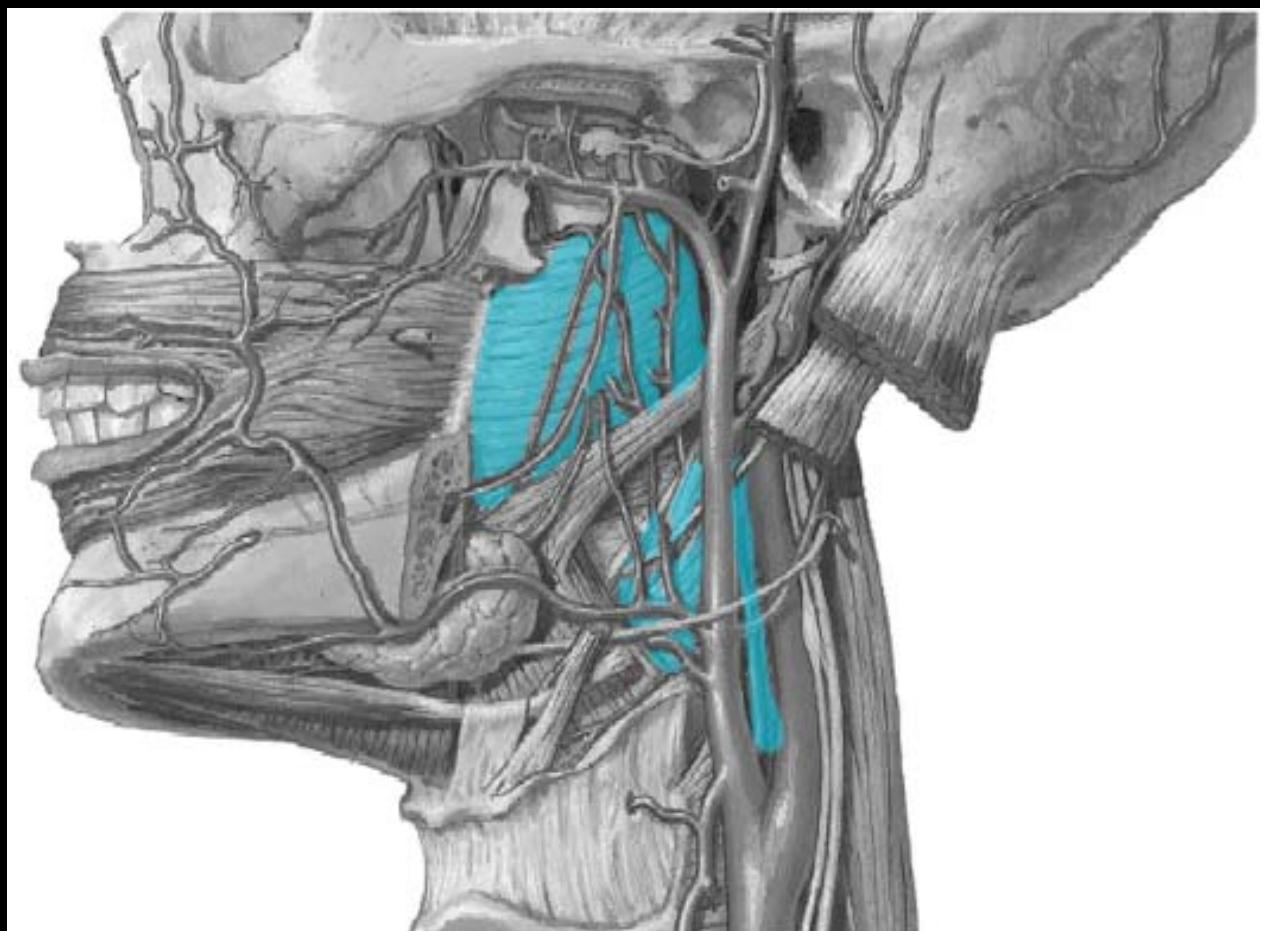

Muscles

- Palatopharyngeus
- Salpingopharyngeus

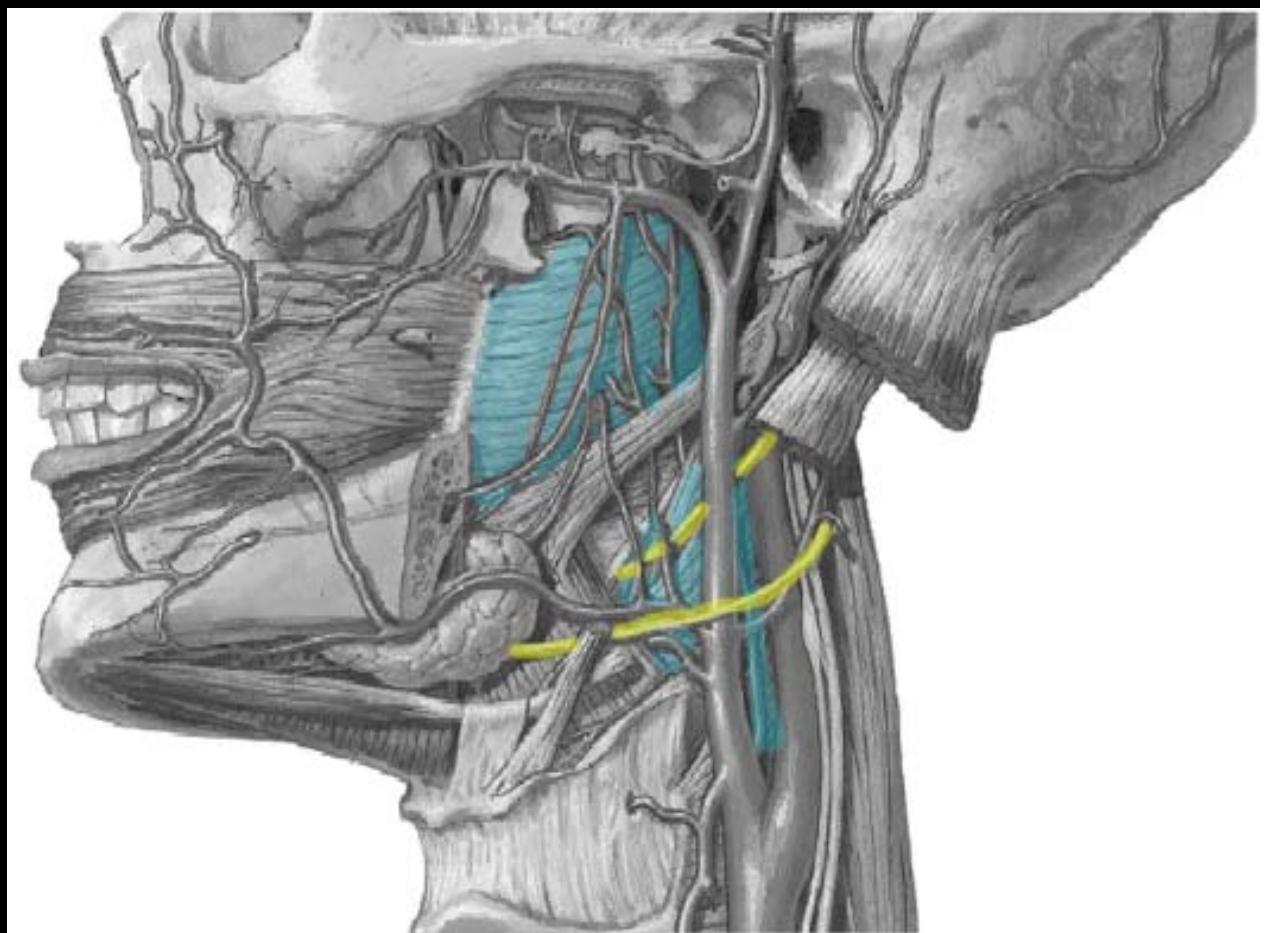

1) Pharynx

- Pharyngeal constrictors

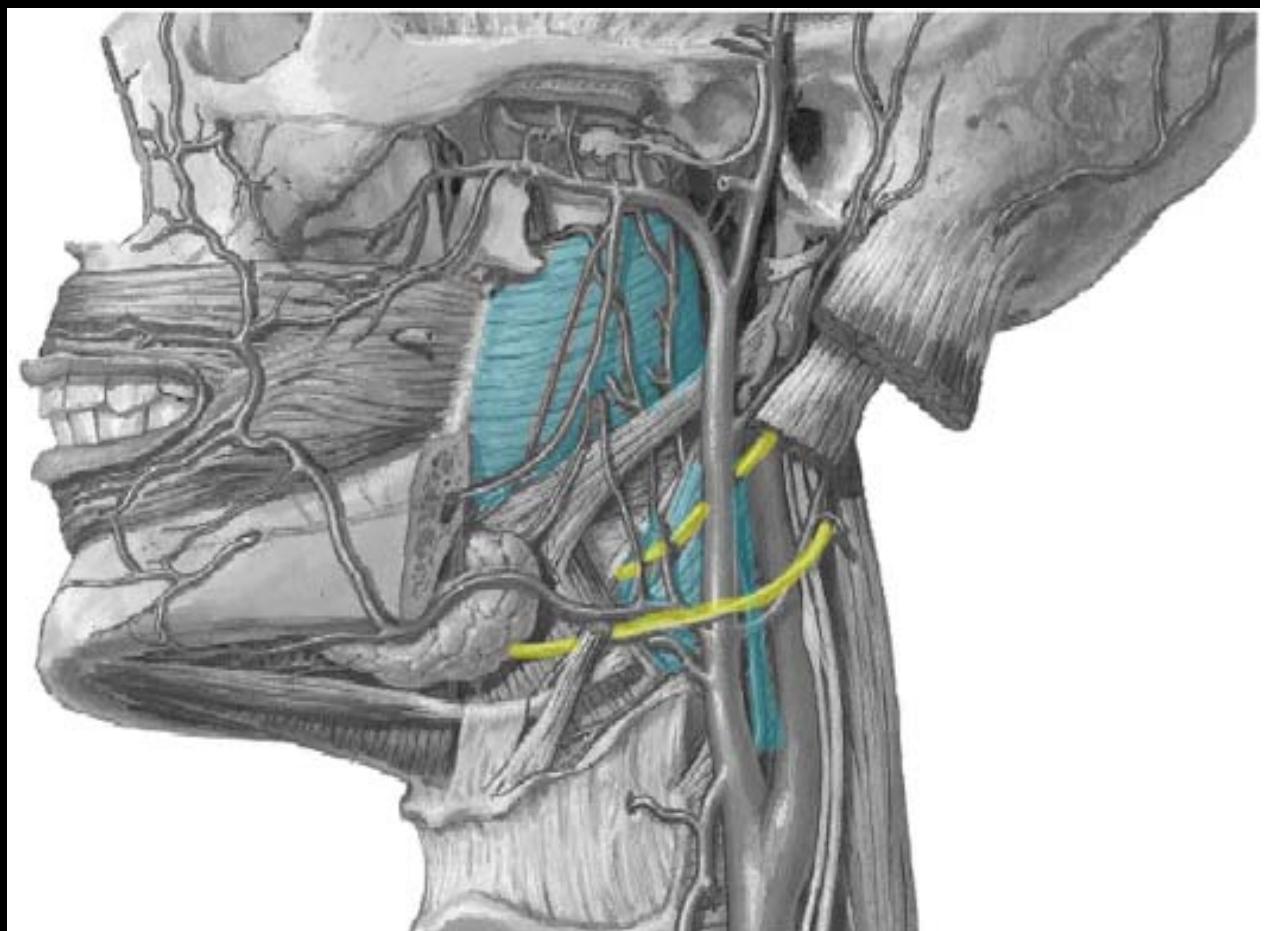

1) Pharynx

- Nerves?

1) Pharynx

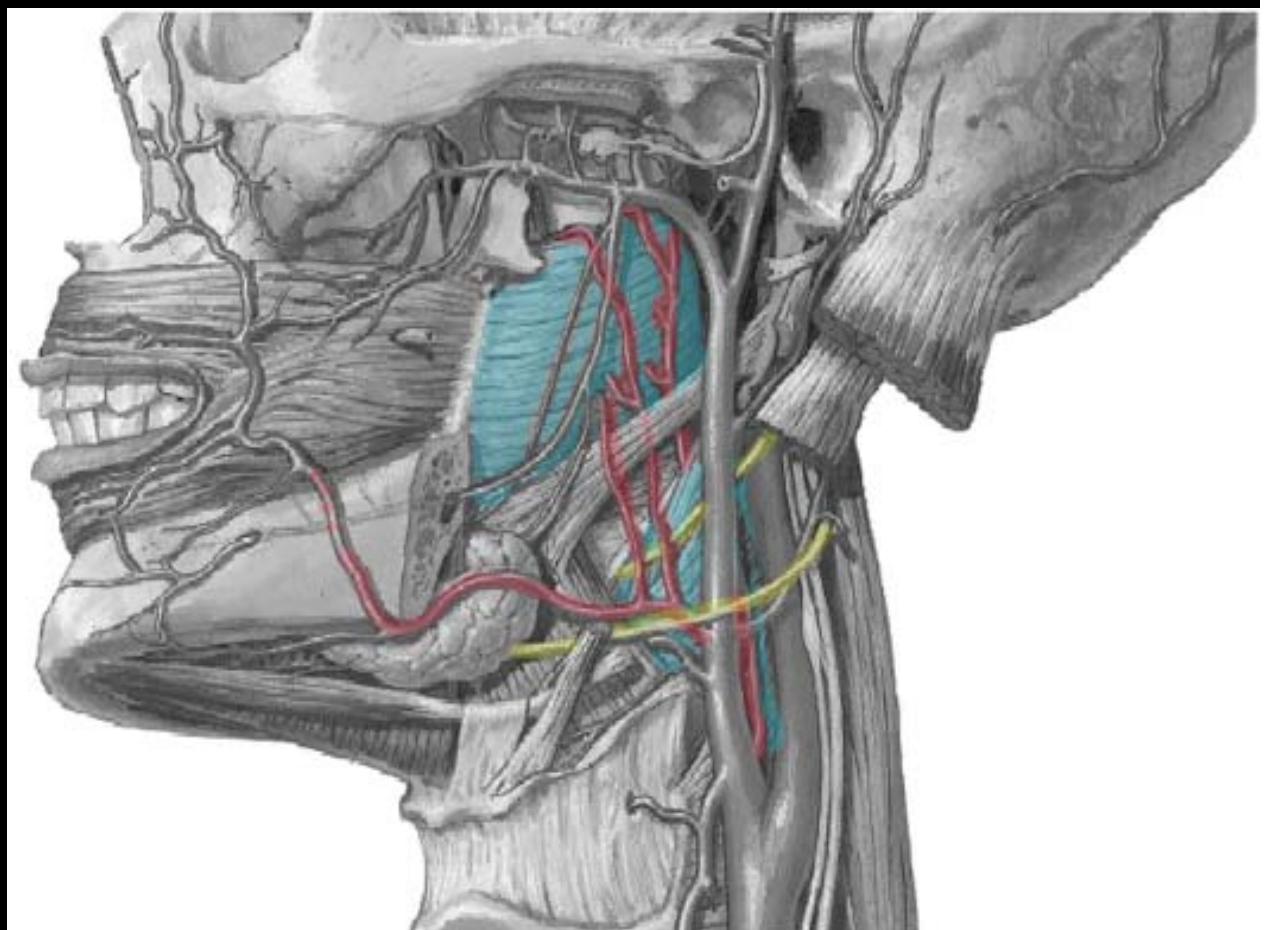

- CN IX
- CN XII

1) Pharynx

Vascularization

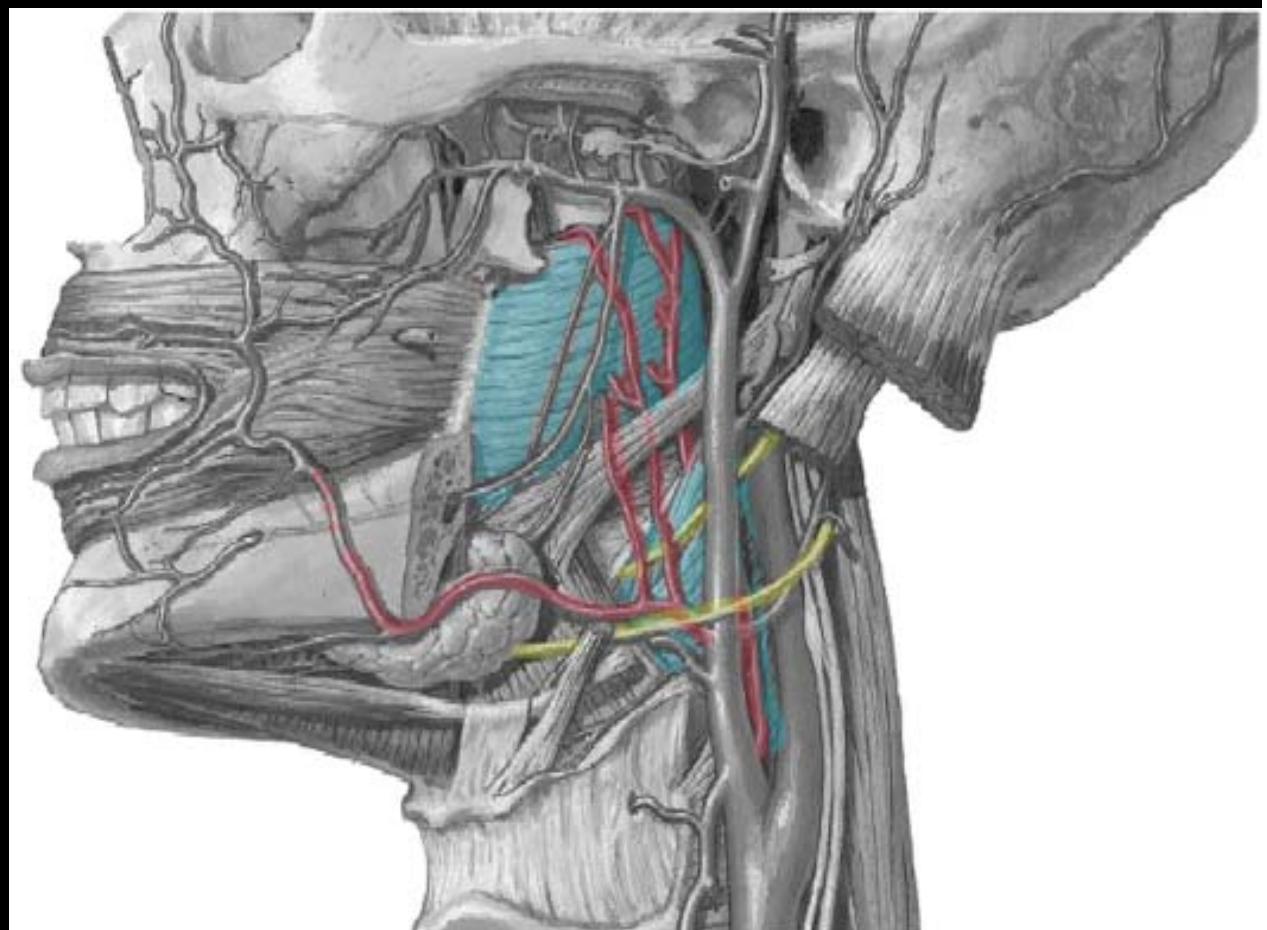

- ?

1) Pharynx

Vascularization

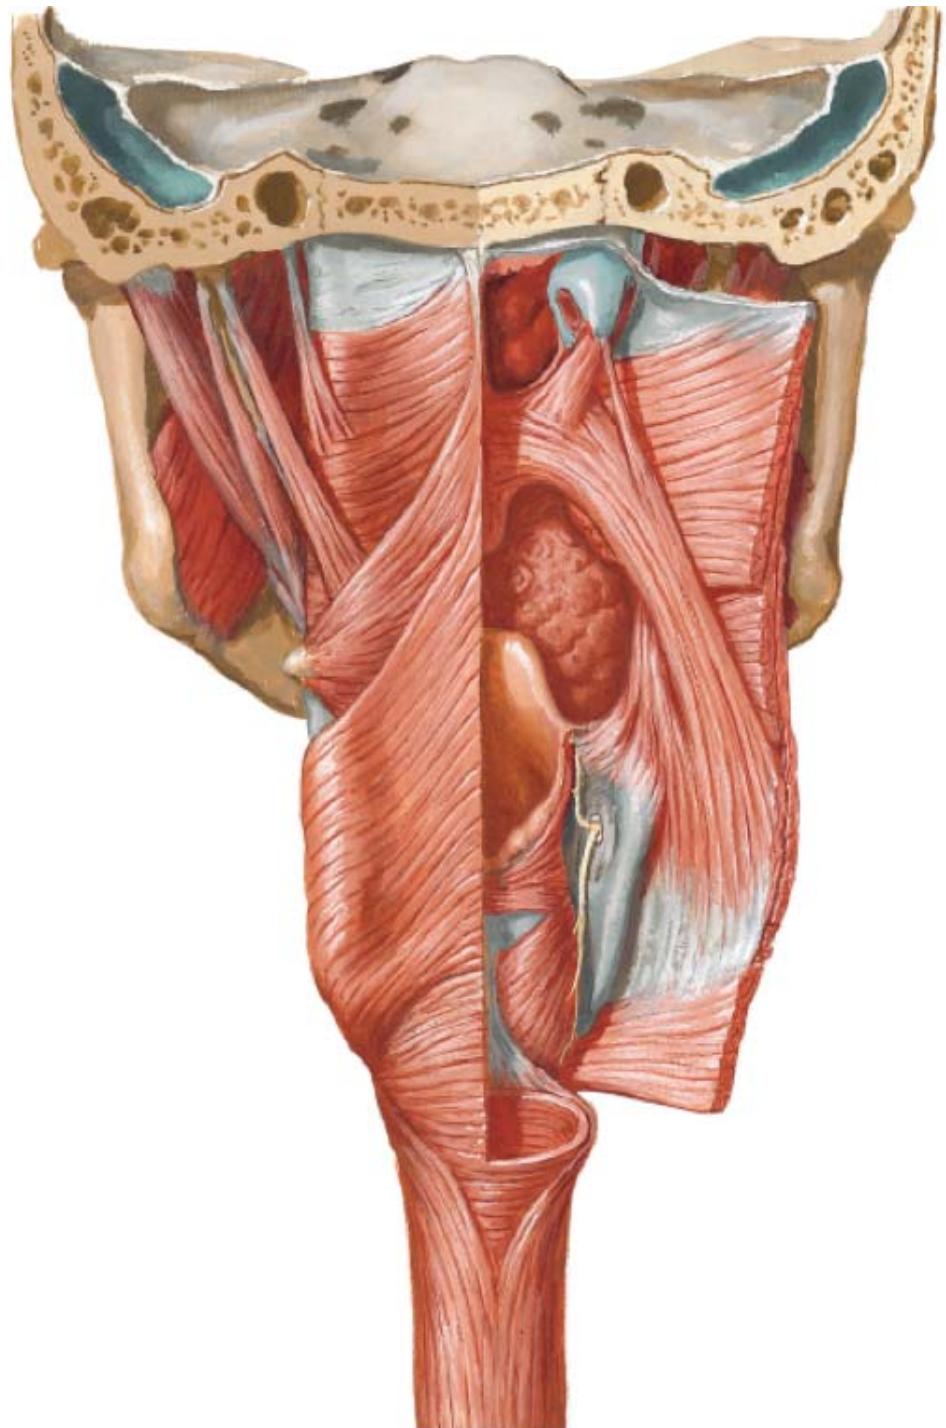

- Ascending pharyngeal a.
- Ascending palatine
- Tonsillar a.

1) Pharynx

Innervation (Motor)

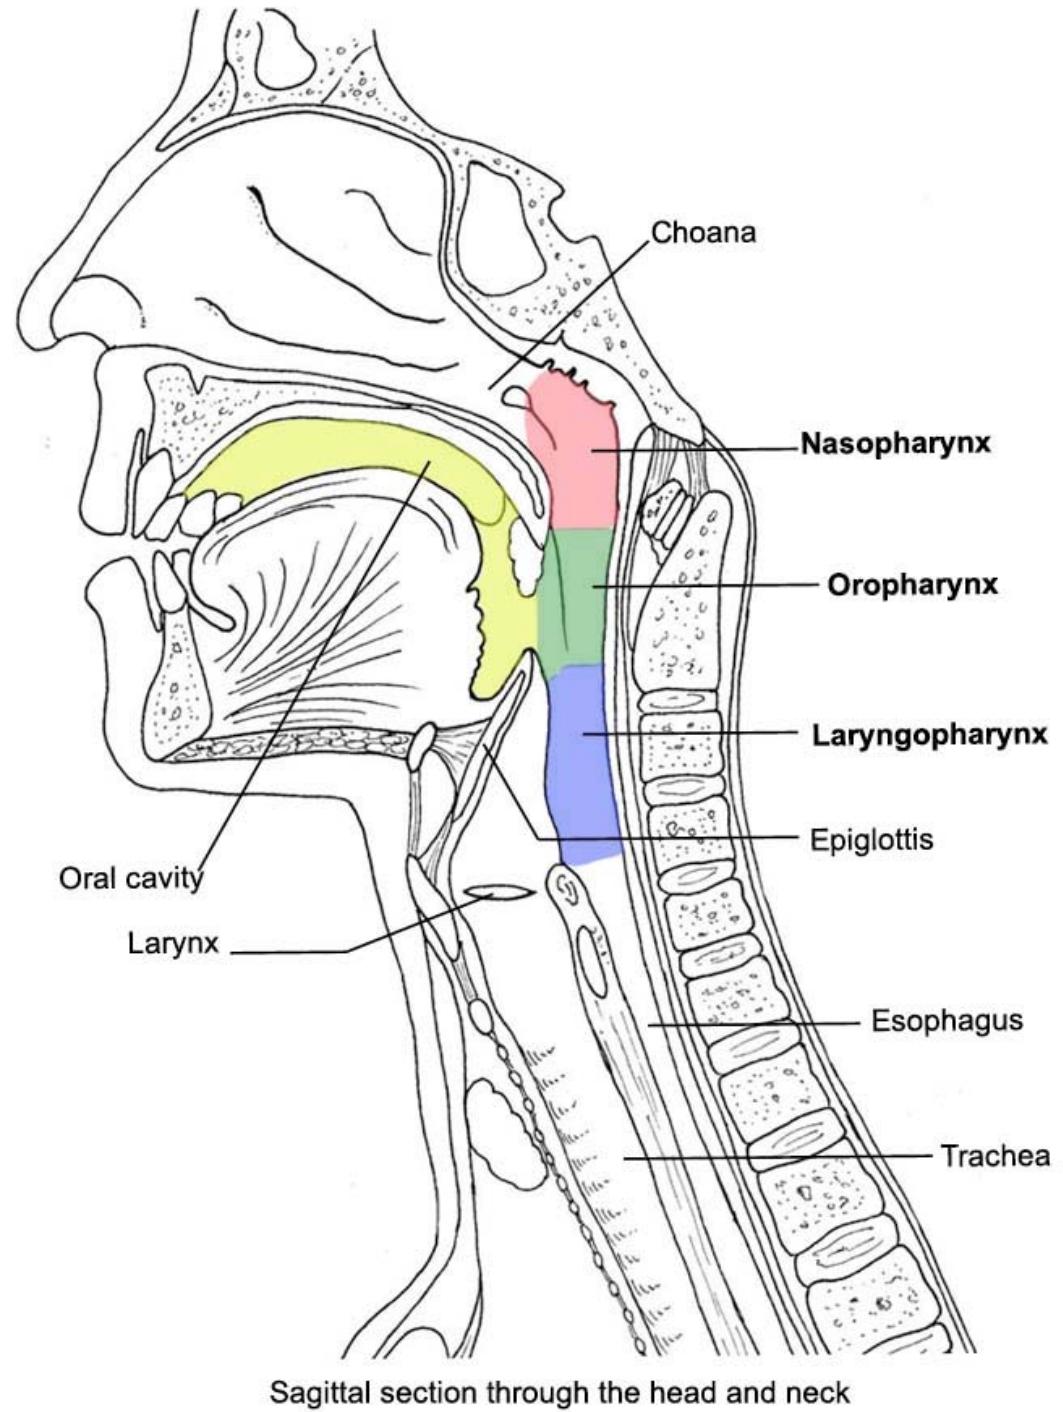

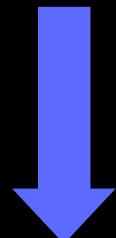

- CN X
- (except stylopharyngeus IX)

1) Pharynx

Innervation (Sensory)

- Nasopharynx (V-2)
- Oropharynx (IX)
- Laryngopharynx (X)

Innervation Highyield

Tongue muscles:

Innervation Highyield

Tongue muscles: **CN XII**

Innervation Highyield

Tongue muscles: **CN XII** (*except* palatoglossus m. ... CN X)

Palate muscles:

Innervation Highyield

Tongue muscles: **CN XII** (*except* palatoglossus m. ... CN X)

Palate muscles: **CN X**

Innervation Highyield

Tongue muscles: **CN XII** (*except* palatoglossus m. ... CN X)

Palate muscles: **CN X** (*except* tensor veli palatini ... CN V-3)

Pharyngeal muscles:

Innervation Highyield

Tongue muscles: **CN XII** (*except* palatoglossus m. ... **CN X**)

Palate muscles: **CN X** (*except* tensor veli palatini ... **CN V-3**)

Pharyngeal muscles: **CN X**

Innervation Highyield

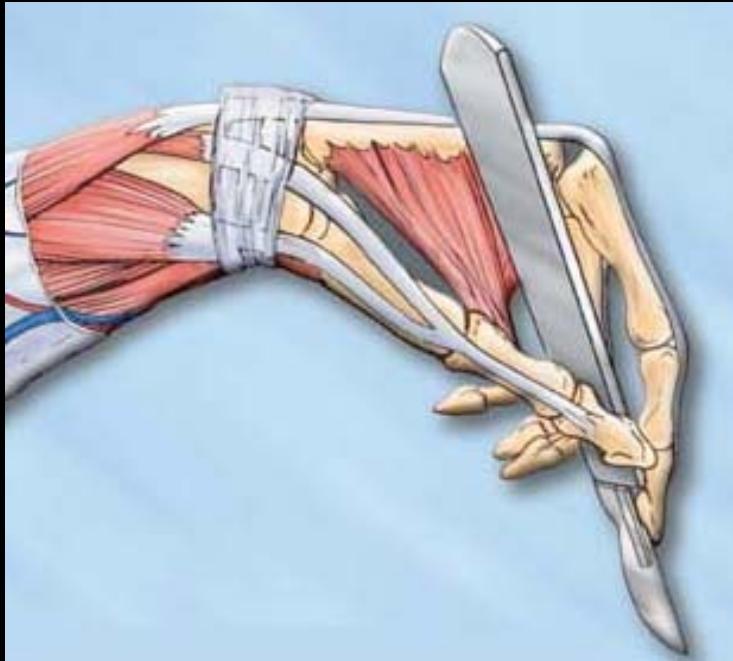

Tongue muscles: **CN XII** (*except* palatoglossus m. ... **CN X**)

Palate muscles: **CN X** (*except* tensor veli palatini ... **CN V-3**)

Pharyngeal muscles: **CN X** (*except* stylopharyngeus m. ... **CN IX**)

The gag reflex is conducted by touching the back of the patient's throat and watching for the patient to gag. Identify the sensory and motor limbs for this reflex?

- A. CN V-3
- B. CN VII
- C. CN IX
- D. CN X
- E. CN XI
- F. CN XII

THANK-YOU
