Audience Response System / TurningPoint

The TurningPoint audience response system allows students to participate in Microsoft PowerPoint presentation lectures by submitting responses to interactive questions using a ResponseCard keypad.

The library currently has 150 response cards and 2 receivers for Health Sciences education. The TurningPoint software is free.

We can help! Contact the library staff for assistance with:

- Downloading and installing TurningPoint software to your computer.
- Point-of-need instruction on creating slides and using TurningPoint in your class.
- Reserving the audience response cards (clickers) and the receiver for the dates and time needed.
- Contact Julie Quilter or Mary McFarland at **801-581-5534** or email reference@lib.med.utah.edu

Or do it yourself:

- **You do not need the receiver and response cards to begin creating or editing your TurningPoint slides** - only to test or present your interactive TurningPoint presentation.

For (PC) Windows:

- Save [TurningPoint 2008](#) (version 4.0.0.8224)
 - **HINT: To Save, Right-click** on the link above and save the file (link) to your desktop.
 - Double-click on Desktop file "TurningPoint2008.exe" to install the program.
 - Launch TurningPoint and begin editing your interactive slides!
- **Note:**
 - Users **MUST uninstall previous versions of TurningPoint** before installing newer versions.
 - TurningPoint2008 **works** with both **MSOffice2003** and **MSOffice2007**.
 - The **2008 version is required to use the new hardware in HSEB.**

For MACs:

- Save [TurningPoint2008 for Mac](#) (Version 1.1.4 -Released 09-23-08)
- **Note:**
 - Users **MUST uninstall previous versions of TurningPoint** before installing newer versions.
 - TurningPoint2008 **will NOT work** with **MSOffice2008**.
 - The **2008 version of TurningPoing is required to use the new hardware in HSEB.**
