

FEED Validator

for Atom and RSS and KML

[Jump to navigation](#)

Congratulations!

This is a valid RSS feed.

Recommendations

This feed is valid, but interoperability with the widest range of feed readers could be improved by implementing the following recommendations.

- [line 24](#), column 0: Missing atom:link with rel="self" [[help](#)]

```
</channel>
```

Source: <http://ecclesvideo.med.utah.edu/IAMSE2008/RSS-test.xml>

```
1. <?xml version="1.0" encoding="utf-8"?>
2. <rss version="2.0" xmlns:atom="http://www.w3.org/2005/Atom">
3.
4.   <channel>
5.     <title>Biochemistry 6090</title>
6.     <link>http://ecclesvideo.med.utah.edu/Content2/IAMSE2008/</link>
7.     <description>iPod format video lectures</description>
8.     <language>en-us</language>
9.
10.    <item>
11.      <title>Biochemistry 6090 - A Leture</title>
12.      <description>One biochem lecture as an example</description>

20.      <link>http://your.url.edu/path/file2.mp3</link>
21.      <guid>http://your.url.edu/path/file2.mp3</guid>
22.    </item>
23.
24.  </channel>
25. </rss>
```

If you would like to create a banner that links to this page (i.e. this validation result), do the following:

1. Download [the "valid RSS" banner](#).

2. Upload the image to your own server. (This step is important. Please do not link directly to the image on this server.)
3. Add this HTML to your page (change the image `src` attribute if necessary):

```
<a  
href="http://feedvalidator.org/check.cgi?url=http%3A//ecclesvideo.med.utah.edu/IAMSE2  
src="valid-rss.png" alt="[Valid RSS]" title="Validate my RSS feed" /></a>
```

If you would like to create a text link instead, here is the URL you can use:

<http://feedvalidator.org/check.cgi?url=http%3A//ecclesvideo.med.utah.edu/IAMSE2008/RSS-test.xml>
