Happy New Year! The Spencer S. Eccles Health Sciences Library faculty and staff have a great year planned for you! Please make a new year's resolution to set aside some time in the coming year to learn new technologies, discover new information resources, and attend several of our educational classes. We recognize how busy you are and are glad that we can provide information that is available from the convenience of your office, classroom and homes. But we'd love to see you also, so do consider the library your second home!

Starting with this edition of our newsletter, several new feature columns will be incorporated throughout the coming year including Cool Tools, Library Champions, eBooks and Database Highlights and Scholarly Communications Updates. From time to time, we will also showcase individual University of Utah authors. So don't be shy - if you have published, please let us know! We want to be sure we add your work to our collection or institutional repository. And if you have other column topic ideas, don't hesitate to let us know!

And note, as of January 5th, the HSEB Bistro Café is under new management - Chartwells. The café has a complete espresso coffee service and more grab-n-go food choices. Be sure to check out the new menu!

As the new director of the library, I would appreciate hearing any ideas you have about how we can assist you. Stop by my office, call me at 801-581-8771 or send me an email - jean.shipman@utah.edu. I am delighted to be a part of the University of Utah community and look forward to hearing from you!
New Management of Café at HSEB

The New Year brings new management at the Bistro Café in the Spencer F. and Cleone P. Eccles Health Sciences Education Building. Chartwells, who provide food service at numerous locations on campus such as the Heritage Center, Student Union and Moran Eye Center, has been chosen to manage the Café at the HSEB beginning January 5, 2009. Hours will be 7:30 a.m.-3:00 p.m. Monday through Friday.

Several exciting changes will be:

1. **Coffee Service** - Coffee will be supplied by *Caffe IBIS Coffee Roasting Company* in Logan, Utah. They provide "triple certified" coffee which means it is certified organic and shade grown, as well as fair trade certified. *Caffe Ibis* has also been recognized as a "Green Business" since 1976. They offer lattes, espresso, cappuccino, café mocha and caramel macchiato in addition to chai, steamers and Tazo tea, flavor shots, iced drinks and hot chocolate in 3 different sizes.

2. **Breakfast Selections** - Eggs cooked to order, bagels and Banbury Cross cinnamon rolls and muffins

3. **Sandwich Bar** - Made to order sandwiches

4. **Grill Selections** - Hamburgers, cheeseburgers, chicken, Philly cheese steak sandwiches

5. **Fries** - regular and sweet potatoes

6. **Au Bon Pain Soups** - meat and vegetarian selection each day

7. **Grab and Go Selections** - Salads, sandwiches and fruit

8. **Box Lunches** are also available with a minimum order of 15. Place orders before noon for next day pick up. The regular box lunch includes sandwich, fruit or pasta, chips and dessert for $6.79 and the deluxe lunch includes a beverage for $7.99. Sandwich selection is turkey, ham, roast beef or veggie. Desserts include chocolate chip cookie, sugar cookie or rice krispie square.

Stop by and visit the Bistro Café; try their specialty coffees, build a super
sandwich, grab a quick salad when you are short on time or cater your next meeting with them. Please consider supporting this endeavor, it helps support the Health Sciences Education Building. MaryJane the new Café Director can be reached at 801-585-1275.

The Neuro-Ophthalmology Virtual Educational Library (NOVEL) is a key educational program of the North American Neuro-ophthalmology Society (NANOS). NOVEL is a collaborative project between NANOS and the Spencer S. Eccles Health Sciences Library. Its purpose is to provide a new model for scholarly communication with opportunities for creating knowledge from original information sources. NOVEL is an open access repository of peer-reviewed, discipline-specific, multimedia resources that promote scholarly communication throughout the North American and international neuro-ophthalmology, neurology, and ophthalmology communities.

New Collection in NOVEL:

NOVEL is pleased to announce the addition of a new collection of video information on eye movements, the Robert B. Daroff, M.D. Collection. Dr. Daroff is a Professor of Neurology at the Case Western Reserve University School of Medicine. His collection of educational video can be found at: http://library.med.utah.edu/NOVEL/Daroff

The collection derives from a set of educational videos produced in 1990. There are 4 major topics:

1. an explanation of saccadic and pursuit eye movements, the anatomical pathways from cortex to brain stem, plus patient videos demonstrating eye movement abnormalities due to cerebral and ganglionic disease.
2. an explanation of Parinaud's syndrome, brain stem gaze palsy, internuclear ophthalmoplegias, one and one-half syndrome, and psychogenic eye movement abnormalities.
3. an explanation of cerebellar control of eye movements and videos of oscillations secondary to dysfunction of the cerebellum and cerebellar pathways within the brain stem.
4. an explanation and patient videos of opsoclonus, square wave and macro square wave jerks, seesaw nystagmus, voluntary nystagmus, and other eye movement oscillations.
The original educational programs can be viewed in their entirety. The original programs have also been edited into more than 60 short clips covering individual topics. These can be viewed and used independently. Ray Balhorn, Eccles Library Video Compressionist, digitized and edited the collection.

For more information about NOVEL, contact Nancy Lombardo; 801-581-5241.
The Lady with the Lamp Moves

Over a four-hour period on Wednesday, January 7, 2009, the 2400-pound statue of Florence Nightingale was carefully moved from the College of Nursing to the main level of the Spencer S. Eccles Health Sciences Library where she will remain as a welcome guest during the College of Nursing's two-year building renovation.

Carved in Italy from Portuguese rose marble by sculptor Avard Tennyson Fairbanks, and dedicated on May 23, 1975, the statue holds a lamp in its right hand and nursing notes in its left. It portrays her just as journalist and biographer Edward Tyas Cook wrote in The Life of Florence Nightingale (published in 1913),

"She is a 'ministering angel' without any exaggeration in these hospitals, and as her slender form glides quietly along each corridor, every poor fellow's face softens with gratitude at the sight of her. When all the medical officers have retired for the night and silence and darkness have settled down upon those miles of prostrate sick, she may be observed alone, with a little lamp in her hand, making her solitary rounds."

Victorian sentimentality aside, Florence Nightingale (1820-1910) was not only the founder of nursing as a profession, but was also an innovative health statistician who made the numbers understandable for bureaucrats. During the disastrous 1853-1856 Crimean War, she was able to convince the British Army that its soldiers' scandalously high death rates were due to poor sanitation, horrific overcrowding, and poor nutrition, ideas that later changed patient care in English hospitals.

She was dubbed The Lady with the Lamp, following an article in the Times
NCLEX-RN Exam Preparation - Electronic Access Available!

The Spencer S. Eccles Health Sciences Library subscribes to STAT!Ref, an electronic resource providing access to a variety of textbooks, tools, resources and now podcasts. STAT!Ref has partnered with Sally Lagerquist, RN, MS, author of Davis’s NCLEX-RN® Success, to provide a series of podcasts aimed at assisting students with their preparation for the NCLEX-RN® exam.

STAT!Ref is linked from the library's home page; click on Article Databases & more, then scroll to STAT!Ref.

The list of NCLEX-RN® podcasts is located on the left-hand menu of the STAT!Ref home page.

1. Test taking Techniques.mp3 (10:44)
2. Test taking Do's and Don'ts.mp3 (8:42)
3. Taking the Exam Soon.mp3 (6:31)
4. Repeat and International Test Takers.mp3 (12:49)
5. Most Frequently Tested Subjects.mp3 (7:51)
6. Focus on Psychiatric Nursing.mp3 (16:26)
7. Focus on Maternal-Newborn Nursing.mp3 (16:27)
8. Focus on Pediatric Nursing.mp3 (17:32)
9. Focus on Medical-Surgical Nursing Part1.mp3 (18:40)
10. Focus on Medical-Surgical Nursing Part2.mp3 (23:36)

Click on a link to listen to the podcast; to download a podcast to your mp3 player, right click and select, Save Target As... Return to the list of STAT!Ref titles and select the Davis's NCLEX-RN® Success ebook to learn more about each section.

In addition to the podcasts, be sure to note other available ebook nursing titles on STAT!Ref, including:

- OLDS' Maternal-Newborn Nursing & Women's Health Across the Lifespan - 8th Ed. (2008)

Note the link to NCLEX-RN podcasts on the left-hand menu

Cool Tools - Sharing Files

Need to share a file but it is too large to send via email? Consider using one of the following online tools:

1. **drop.io**
   - Share files by creating sharing points online: upload file by Web, email, phone, fax, and more.
   - Can password protect files and set expiration date for drop pickups.
   - Free and Feeware.
   - Free for drops less than 100 MB.
   - No registration required.
   - Take a tour at: [drop.io tour](http://drop.io) or see [uses of drop.io](http://drop.io) for more information.

2. **YouSendIt.com**
   - Share files by uploading to YouSendit. Recipient is notified by email to download from YouSendit site.
   - Free and Feeware - inlcuding Pay Per Use option.
   - Free account limits file size to 100 MB.
   - Registration required.
   - Several application Plug-Ins available but not required.
   - Take a tour at: [YouSendIt tour](http://yousendit.com).

3. **UUHSC Sendit** for University of Utah employees conducting official University of Utah business
   - Share files "for official business between University of Utah employees and their colleagues/vendors only."
   - Free.
   - Restricted to University of Utah email for official University of Utah business.
   - Size limit: 1000MB.

**Cool Tools Disclaimer:** The user assumes full responsibility for use of applications or technology.

Library and Information Technology Forum  
Spring 2009 Program Schedule

The purpose of the Library and Information Technology Forum is to inform the University of Utah community about electronic information resources, and current trends in the use of computers and online technologies for accessing these resources. The Forum is generally held the second Wednesday of each month between September and May, in the Spencer F. and Cleone P. Eccles Health Sciences Education Building and is co-sponsored by the Spencer S. Eccles Health Sciences Library and the Media-On-Demand committee.

Our first program for the Spring 2009 Semester features Dave Packham who will talk about New Options in Smartphone Cellular Technologies. Dave works with the Office of Information Technology and investigates innovative technologies. Dave coordinates activities with the IT departments on upper and lower campus to define standards for new technologies and to help departments identify new technologies that are helpful and available to the University of Utah.

Future programs:

- **February 11, 2009;** Suzanne W. Fletcher, MD, MSc: How to Write a Paper for Publication: A Few Tips from an Editor (HSEB 2110)
- **March 11, 2009;** Richard Glaser: Podcast Producer (HSEB 3515B)
- **April 8, 2009;** to be announced (HSEB 3515B)
Classes @ the Library

Spencer S. Eccles Health Sciences Library faculty and staff offer classes, workshops and training opportunities to assist the University community in their use of quality information resources, databases, tools and applications.

Our Classes @ the Library Web page makes registering for classes easy and convenient. Registration is required for all classes. Click on the title of the class you want to attend, then click on the date and fill in the requested information and submit. The classes list has been updated for the Spring 2009 semester.

Classes Can be Scheduled on Demand
On-demand classes or consultations can be scheduled by contacting the instructor or Education Services librarian; 801-585-6744.

Integrating Library Classes into Course Content
University faculty are encouraged to consider integrating library classes into their course content. Library faculty are willing to develop and teach classes that meet specific information needs and will respond to requests for instruction on a specific resource. Course-integrated library and technology instruction that is centered on a specific class assignment is most helpful to students.

If you do not see a class listed that you would like to see us offer, see our Request a New Class form.

Reduced Library Hours

The Spencer S. Eccles Health Sciences Library is announcing new library hours for spring semester. Due to the "soft cut" of 9% and the impending larger, permanent cuts in the new fiscal year, it was decided that one place to reduce expenditures was library hours. Usage statistics show that late night and some weekend hours are not as necessary with the Spencer F. and Cleone P. Eccles Health Sciences Education Building serving as 24/7 study space for students, and with electronic reserve readings and resources available online.

The Hope Fox Eccles Clinical Library has also transitioned to primarily electronic health sciences resources. In addition, consumer-oriented health information and assistance is requested most frequently during daytime and early evening hours. Clinical Library hours are Monday to Friday - 8:00 a.m. to 8:00 p.m., and Saturday and Sunday from 10:00 a.m. to 6:00 p.m.

If you have comments, suggestions, questions or concerns please contact Eccles Library Director Jean Shipman; 801-581-8771.
