Open Mic with the CIO:
An Informal Discussion on Cloud Computing

When: Wednesday, 2 November 2011
Time: 12:05 p.m. to 1:00 p.m.
Where: Health Sciences Education Building (HSEB), Room 2110
Who: Eric Denna, CIO, University of Utah
What: Library and Information Technology Forum

Program Description
Eric Denna, Chief Information Officer at the University of Utah, will field questions related to the topic of cloud computing. As employees of the University of Utah many of us have questions about University policy and security related to the cloud. During this informal forum, Eric promises to answer all our questions about cloud computing or any other computing concerns.

Examples of cloud computing include web-based email, Google Wave, Slide Share, and services like Humyo or ZumoDrive that allow for online storage of data on someone else’s server.

Presenters
As CIO for the University of Utah, Eric Denna has responsibility for Information Technology strategic planning, policy, standards, architecture, and the overall campus-wide IT governance process. He supervises networking, unified communications, administrative computing, classroom technology services, the university webmaster, Web design, video production, duplication, streaming, research computing, and services provided by the Center for High Performance Computing. In addition, Denna shares responsibility for central campus data centers and IT infrastructure services, IT compliance, and operational security with the University Hospitals and Clinics.

Light refreshments will be served!
Co-sponsored by the Spencer S. Eccles Health Sciences Library
And the Media-On-Demand Committee
