

**Airset: There is Life and Communications Beyond the listserver**

**Francis Rabuck CCP,PCLP,CWNA,RFID+  
President, Rabuck Associates**

Airset and other free online services now provide Collaboration, Coordination, Calendar tools and more for tracking all the little groups in your life. This breakout session will demonstrate and discuss the potential for a shared collaborative workspace for “Slicers” and all the other groups that Slicers are involved with. We will discuss the Airset integrated environment that allows file sharing, contact lists, calendars, blogs, web links, task lists and more features that can help create a shared community. We’ll also see the potential to have a year-round virtual conference space.
