

## **"WHAT IS HEAL AND HOW CAN I CONTRIBUTE?"**

**Sharon Dennis, M.S., University of Utah and Sebastian Uijtdehaage, Ph.D., UCLA,  
HEAL Co-Directors**

The Health Education Assets Library (HEAL) is a digital library that provides freely accessible digital teaching resources of the highest quality that meet the needs of today's health sciences educators and learners. HEAL began in 2000 and was started by a group of Slicer's in the Slice spirit of open access to educational multimedia materials. Today, HEAL includes over 22,000 peer reviewed resources in a variety of subject areas, has over 7000 registered users and is used worldwide by educators.

If you'd like to learn more about HEAL as well as learning how you can contribute to HEAL and receive academic credit for your work, join us at this informal session. We'll update you on HEAL's current status, future plans, and answer any questions you may have about contributing to or making use of HEAL's resources. We look forward to seeing you there!
